

ADVANCED SYSTEMS TECHNOLOGY

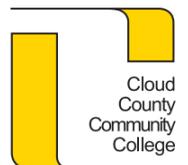

The **Advanced Systems Technology** Program here at Washburn Institute of Technology will expand to meet local and regional needs through an enhanced training center and redesigned curriculum that includes stackable credentials. Through technology-enabled learning, training will serve students from partner institutions and embed technical skills into basic education classes. Mobile training labs will be outfitted to support learning and provide hands-on experience to participants across the state. This program is funded by the U.S. Department of Labor through the TRAC-7 grant program.
