

GBCC NCAM300 Rapid Response

Reviewer: A Stephens

Category	Score	Notes
Learning Objectives	2	Learning objectives are present.
Course Support of and Alignment to Learning Objectives	2	All of the projects and assessments are directly related to the process you go through to manufacture machined parts.
Sequencing of Course Content	2	Based on the three lesson plans included, both build on what was taught in previous days, and each day is ordered so skills build on what they previously learned earlier in the day.
Opportunities for Active Learning	2	There are many hands on projects on the machinery and reading real blue prints to manufacture different pieces, and the class is structured around hands on experience. After they cover blueprints, they are given several projects to put those skills to use.
Opportunities for Formative Feedback to Students	2	The syllabus indicates that students must be under direct supervision while on a piece of equipment.
Summative Assessment of Learning	1	A final is noted, although it is not included in the materials so it cannot be determined if it aligns with course objectives.
