|--|--|--|

Traits & Behaviors

- Focused
- Flexible (can change easily)
- Good work ethic
- Honest
- Loyal to company
- Patient
- Positive
- Pretend you like working with people
- Professional
- Self-motivated
- Self-starter
- Sense of humor (it really helps)
- Think beyond task at hand - see whole picture (and know what those expectations are)

Hiring Requirements

- GED/HS
- 1 year experience or training (for some)
- Internship (4 weeks for some) (12 weeks for some)
- A.S. Degree preferred (for some)
- References
- Some form of ID

Hiring Barriers

- Drug screening (urine)
- Credit check (for some)
- Check government sanctions
- Cannot provide enough references (3 required - 2 must be supervisor reference)
- Background check - larceny, theft, fraud (if they lie on application and it's found on background check)

Certifications/Licensure

Mandatory:

- N/A

Helpful/Useful:

- Hospital Billing Certification
- AAPC Certifications (CPB, CPC)

Workplace Expectations

- Need to be able to work as a team ("this is not an island")
- Need to be accurate, "In medical billing it's all about accuracy"
- Expect to always be busy, "There is never a slow time unless the power goes out", still work without power
- Serve as patient advocate - first loyalty to provider
- Need to be able to adapt quickly to changes required/dictated by insurance carriers
- Cell phone - do not use during work
- "Coding" means different things at different places. Billers verify/select codes provided, do not determine code.
- Insurance rules and CPT codes do not always wash, need to know both
- Be on time

Physical Attributes

In order to perform the necessary functions of the job, the worker must be able to:

- Sit for minimum of 8 hrs (with breaks and lunch)
- Lift up to 10 lbs. without help (for some companies)
- Hear, or use appropriate accommodation to communicate with customers via phone/in-person
- Read information on computer screen - legally blind is OK, must be able to use computer screen
- Use hands to type (need enough dexterity and mobility to perform this function)

Appearance

- Professional image
- Good hygiene
- Casual, Super Casual, Business Casual
- No Logos (for some)
- No beach attire (no flip flops, spaghetti straps, short shorts, nothing ripped)
- Stylish shoes that flip and flop OK
- Shorts (for some) (none for some)
- Friday casual (for some)
- No jeans, shorts, sneakers in hospital
- No strong scents
- No visible or excessive tattoos/piercings (for some)

Attendance/Work Shifts

Expectation:

- Flex schedule (some)
- M-F dayshift (30 minute lunch, two 10-15 minute breaks)
- Arrive a few minutes early every day, be ready to work
- Be on time

Call for termination:

- No call no show
- Constant attendance issues
- 12 unscheduled instances a year of late, calling in, leaving early (for some)
- Drugs/alcohol for cause

Future Trends & Concerns

- Denials are growing - insurance companies are finding new ways to deny or delay claims
- Employees need good and continuous training
- Fast growth profession, growing fast, hard to keep up with growth
- Generational challenges (cell phones and issue, flexibility)
- Healthcare is constantly changing - billers need to be able to adapt to change. There are new reimbursement programs all the time (daily, weekly, monthly)
- Issues with finding/maintaining quality workers:
 - ◊ Medical billers are needed; multiple openings yearly with most employers due to retirements and growth
 - ◊ Re-careering folks may view billing as a stepping stone
 - ◊ Mismatch in understanding job requirement. Billers do not interact with patient like other medical support staff (not going to "help people")
 - ◊ Computer skills are often lacking in new hires. Need to be computer savvy.
 - ◊ Workers expecting more flexibility with scheduling
 - ◊ Need to get back to the basics with work ethic (employers expect workers to give the full 40 hours)
 - ◊ Workers leaving after "trying job" and finding it's not for them
 - ◊ New workers expecting to advance more quickly than possible
- Some panelists expressed concern for disconnect within hiring management when faced with filling vacancies in understanding what makes a good biller and therefore not getting the best match of billing personnel, and/or not understanding why they are losing billers.
- More specialized, increase electronic
- Move from paper to paperless
- Professionalism lacking in new workers ("Big lack of work ethic")
- Technology (EPIC) from the other side makes it challenging
- Transition away from fees for services model challenges
- Veteran employees have difficulty multi-tasking (working 2 monitors, and phones, etc.), some people don't like change
- EPIC activity points used to monitor productivity (no to be used to compare against others)
- Daily productivity goals used in evaluations
- HIPAA concerns/lack of training
 - ◊ Biller liable for things they may not realize
 - ◊ Billers need to understand PHI, it impacts every form of biller communication: verbal, written, electronic (including having proper release forms on file when answering calls, responding to written inquiries, etc.) Billers can't take for granted how they answer a call without establishing who they are speaking with, they may innocently confirm a person was treated at a facility just by acknowledging an account exists.

Employment Expectation of New Medical Billers

As new Medical Billers on the job, the panelists initially felt unprepared for:

- The number of applications (software) needed to do the job
- How much multi-tasking is required (patient calls, balancing, payments, etc.)
- Posting electronic claims to balance correctly
- The amount of contact with insurance required
- Working with others and the amount of people to people communication required
- Knowledge needed to do their jobs. Specifically knowledge in:
 - ◊ Billing for laboratory charges
 - ◊ EMR
 - ◊ Medical terminology
 - ◊ Insurance company procedures and policies
 - ◊ Coding - knowledge is necessary to perform billing proficiently
 - ◊ HIPAA
 - ◊ Insurance follow up and differences in insurances; BCBS vs BCBS Medicare, Medicaid and Medicare

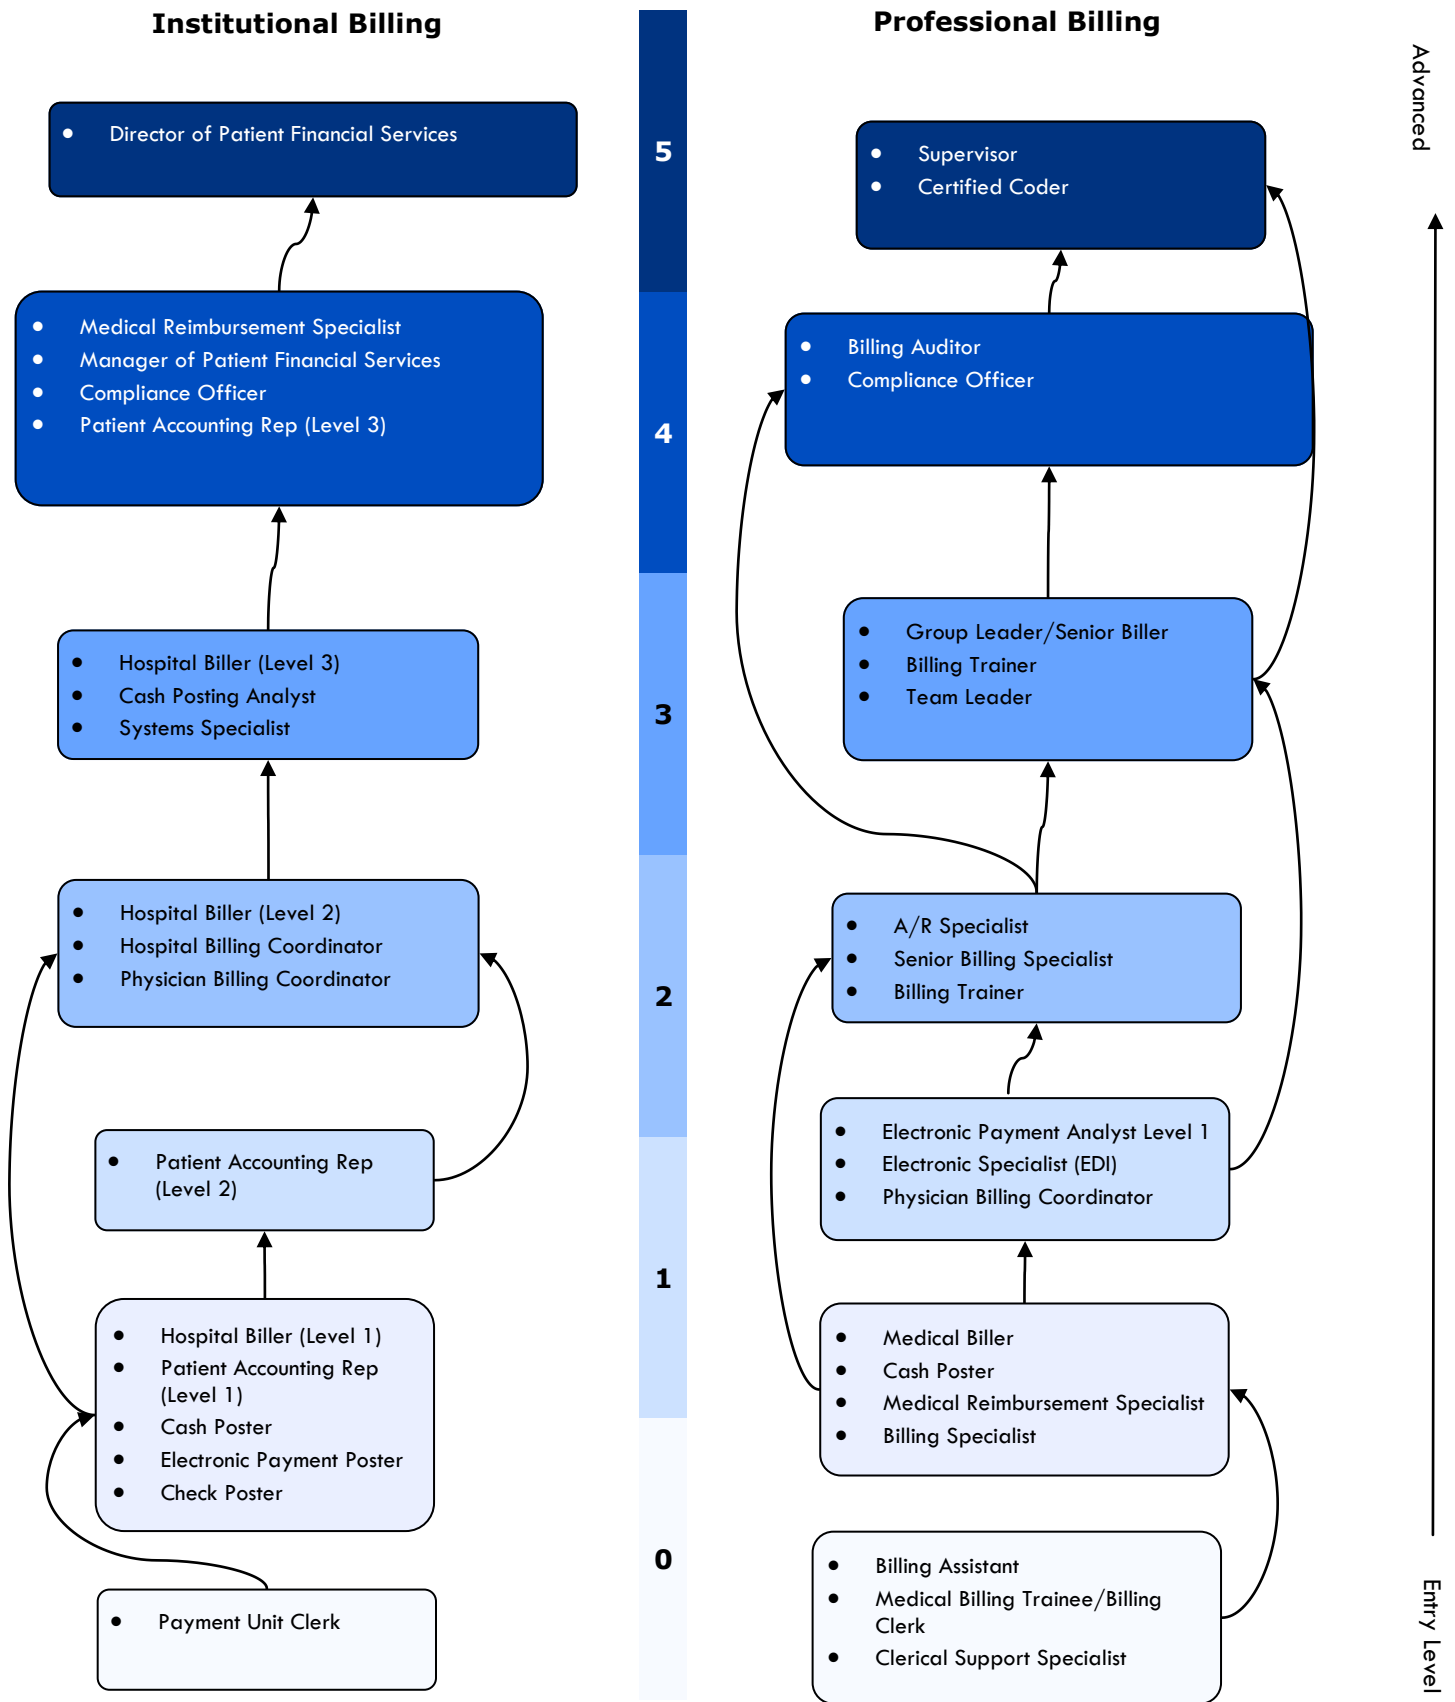

Additionally, when first arriving at their workplace the panelists were initially disillusioned by the following:

- Additional training on AR and follow up
- More training and documents of knowledge
- Continuing education opportunity provided - CMBS Certification
- A lot less micromanaging than expected
- Less feedback about quality of work
- The ongoing nature of the job - the job is never done, there is always something else that needs to be done.

Acronyms Used

AR: Accounts Receivable
 BCBS: Blue Cross Blue Shield
 CMBS: Certified Medical Billing Specialist (not mandatory)
 COB: Coordination of Benefits
 CPT: Current Procedural Technology (codes)
 EDT: Electronic Data Interchange
 EFT: Electronic Funds Transfer
 EOB: Explanation of Benefits (aka EOR)
 EOR: Explanation of Review (aka EOB)
 ERA: Electronic Remittance Advice
 HCFA: Health Insurance Claim Form
 HCPCS: Healthcare Common Procedure Coding System
 HIPAA: Healthcare Insurance Portability and Accountability Act
 HMO: Health Maintenance Organization
 ICD: International Classification of Diseases
 KSPH: Key Strokes Per Hour
 NDC: National Drug Code
 UB04: Health Insurance Claim Form
 WPM: Words Per Minute

Potential Job Path for Medical Billers

Please note: The numbers in the shaded graph represents years of training and/or experience required. Job titles vary per size and type of institution/company where some may perform functions that are specialized positions in others. It is not necessary for a person to move through each of these phases of advancement to reach a particular position level. Companies differ on which titles are utilized for which rank of position. The titles and levels indicated are a measure of jobs typically performed from entry level (little to no experience and/or training) to more advanced skill level.

Onondaga Community College wishes to extend a special “thank you” to the following businesses for sponsoring their worker(s) for a one-day workshop in order to develop this occupational profile for Medical Billers, and to all of the expert workers who served on the DACUM panel. Our program will be better because of your direction and guidance.

This occupational profile was validated by local expert workers based upon the *DACUM Research Chart for Medical Biller* sponsored by (Community College Beaver County, 2008, the *DACUM Competency Profile for Medical Reimbursement Specialist* produced by Regional Health Occupations Resource Center, Satan Barbara City, 1999, and the *Employability Skills Profile: Medical Biller* sponsored by OCC, 2016. OCC's Workforce Development Programs have been funded under a 2.5M United States Department of Labor TAACCCT Grant whose purpose is to facilitate greater employment by improving education.
