

CERTIFIED LOGISTICS TECHNICIAN

NATIONALLY RECOGNIZED, TUITION-FREE TRAINING

Mineral Area College now offers a nationally recognized Certified Logistics Technician Certificate. This certificate is ideal for those wishing to enter the logistics field or current logistics employees wanting to increase their skill level.

Industry Recognized

Our training is certified by the Manufacturing Skill Standards Council (MSSC) and endorsed by the National Association of Manufacturers.

Training

Flexible online, lab and classroom opportunities allow participants to earn industry-recognized credentials that validate their skills in current manufacturing processes. Curriculum includes e-learning, hands-on skill training in the Advanced Manufacturing Lab and instructor-led classroom study.

Curriculum and training will cover the following supply chain facilities: warehouses, distribution centers, transporters and manufacturing facilities. Training includes:

- Manufacturing Safety (Includes OSHA 30 Training)
- IT Fundamentals
- Teamwork/Workplace Communication
- CLA/CLT Assessment Prep

College Credit

In addition to your certificate, ten hours of college credit are awarded with this program, and applicable college credit may be applied to the following MAC Associate of Applied Science degrees:

- Industrial Maintenance
- Engineering Technology
 - Civil Architecture
 - Drafting and Design
 - Manufacturing

INTERESTED IN MANUFACTURING? Mineral Area College has exciting short-term options for eligible applicants seeking tuition-free training and nationally recognized industry credentials.

NO TUITION

MAC is one of the MO Colleges awarded federal funds from the Trade Adjustment Assistance Community College and Career Training Grants Program by the Department of Labor, Employment and Training Administration. The MoSTEMWINS grant serves the following eligible participants:

- TAA (Trade Adjustment Assistance) individuals
- Unemployed
- Underemployed
- Low-Skilled
- Entry-level employees wanting to increase their skill level

Lab and book fees are not covered by the grant. However, assistance may be offered to eligible students through the MO Career Center.

EMPLOYERS

Our partners include the Mineral Area Training Consortium and the SEMO Regional Industrial Training Group, comprised of 28 manufacturers in a seven-county region.

GETTING STARTED IS EASY!

Contact MAC

Tina Miller, MoWINS Program Support Specialist/Navigator

CERTIFIED LOGISTICS TECHNICIAN

CRITICAL PRODUCTION FUNCTIONS COVERED BY MSSC ASSESSMENTS

The Manufacturing Skill Standards Council (MSSC) credentialing system leading to a CLT covers core competency areas, as defined by MSSC's industry-led, nationally validated skills standards for higher skilled, frontline material handling workers across all supply chain facilities: factories, warehouses, distribution centers and transporters. Individuals are assessed for two credentials: the *foundational-level Certified Logistics Associate (CLA)* certificate and *mid-level Certified Logistics Technician (CLT)* Certification. CLA is a prerequisite for CLT. MSSC training and assessment addresses the need for academic skills as well as technical skills.

The critical work functions and their related key activities are described below:

CERTIFIED LOGISTICS ASSOCIATE (CLA)

1. Global supply chain logistics life cycle
2. Logistics environment
3. Material handling equipment
4. Safety principles
5. Safe material handling and equipment operation
6. Quality control principles
7. Workplace communications
8. Teamwork and workplace behavior to solve problems
9. Using computers

CERTIFIED LOGISTICS TECHNICIAN (CLT)

1. Product receiving
2. Product storage
3. Order processing
4. Packaging and shipment
5. Inventory control
6. Safe handling of hazmat materials
7. Evaluation of transportation modes
8. Dispatch and tracking
9. Measurements and metric conversions
