Employers...you in?

KCC Advanced Manufacturing Assembly Training prepares the workforce of today and tomorrow for high-wage, in-demand careers. We do this using certification-based training focused on industry-recognized credentials. Our program involves a working manufacturing line that applies a variety of skill sets and production concepts.

Following the successful completion of the four- week training, participants will:

- Understand the role of a production associate and the manufacturing environment, which includes performing the physical demands of the job
- Gain leadership skills, including professionalism, responsibility, time management, teamwork and accountability
- Read and comprehend performance measures and standards
- Create an effective resume and hone interview techniques

What you need to know

- 4** weeks
- 8** college credits
- 2** career coaches
- 0** cost to employer

It's time to **GET TO WORK.**
