HIT 115 - Country PPT

Directions:

- Please develop a PowerPoint Presentation, but it must be at least 10 slides long, but can be 10-15 slides long. No more than 15 slides. (It must include a reference slide at the end, which does not count in the 10 required slides. The references must be in APA format.)

- The PPT must be narrated. If we were a seated class, you would give this presentation in class. Since this is anonline class, you must narrate your PPT slides. Each slide must have narration.Please remember when recording on each slide, this is your presentation and record at a time and location where there will be minimal background noise; i.e., no kids, no pets, etc. The narration step is very simple to do. If you are not sure how, please check with the IT Help Desk at Lybyer.

For APA help, please reference the Writing Lab.

- You must use at least two references (Internet, textbook, newspaper, magazine, etc.)
- **Paper must be a review of the health care delivery system in your assigned, as compared to the U.S., and must cover these three points**:
    i. Electronic health record implementation or barriers to electronic health record implementation.
    ii. Patient Portal.
    iii. Electronic prescriptions.

<u>**A country will be assigned to you by the instructor in a separate announcement.**</u>
