

ELECTRICAL POWER TECHNICIAN

The **Electrical Power Technician** Program will expand local and statewide capacity and training outreach through online modules and a mobile Boot Camp Training Skills program. Virtual Reality Lab simulations package will allow participants to gain valuable experience without the inherent dangers of working with live voltage. An enhanced computer network infrastructure upgrade enables increased bandwidth to support the online learning with enhanced Web 2.0 environments. This new and improve program is funded by the U.S. Department of Labor through the TRAC-7 grant program.
