

# Student Internships

**Student Name**  
Miguel Goicoechea

**Company**  
Caribbean  
Communications  
Services, Inc.

Caribbean Communications is a high-technology integrator in the areas of telecommunications, wired and wireless communications systems, security surveillance systems, intelligent transportation systems, radio frequency Identification (RFID), automatic vehicle location and intelligent city systems.

During the Industry Technical Internship, students will have a real-world full-time technical experience with a company or institution in areas where optics and photonics are enabling technologies. Students will acquire technical experience and skills in a manufacturing, industrial, or research setting.

Equal Opportunity: Universidad Metropolitana (UMET) provides equal education and employment opportunities and does not discriminate on the basis of race, color, religion, sex, gender, gender identity, real or perceived sexual orientation, national origin, military status, status as a protected veteran, physical or mental disability, social condition, age, marital status, political ideologies, domestic violence or sexual attack victim status, or any other characteristic protected by federal, state, or local law. Disabilities: Services are available to students who may need accommodations, interpreters, and/or specialized equipment. All student requests are dealt in confidential manner. The Certificate in Photonics & Lasers Technical Specialist is part of New Horizons: Puerto Rico Lasers and Photonics Career Pathways, a project funded by the United States Department of Labor - Employment and Training Administration - Trade Adjustment Assistance Community College and Career Training Grant (TAACCCT) Round 4. TC-26472-14-60-A-72. The program materials were created by Puerto Rico Photonics Institute (PRPI), UMET and do not necessarily reflect the official position of the U.S. Department of Labor.
