

Bay College welding students are in demand.

Eight Michigan community colleges formed the Michigan Coalition for Advanced Manufacturing (M-CAM) to enhance and create training programs in the in-demand areas of welding/fabrication, CNC machining, production operation and multi-skilled/mechatronics.

*“I’m very impressed with the M-CAM program here at **Bay College**,” said Traci Hallmann. “They were able to find me a job before I was even finished with the schooling. I’ll be able to go anywhere and if I do have to move, there’s welding jobs all over the place. I actually have a talent now that I found I’m good at.”*

M-CAM prepares participants for 21st century jobs in advanced manufacturing.
