

# Mott welding students are in demand.

*“It was only a week and a half after ending the welding program at **Mott Community College** that I found a job,” said Amanda McCulley. “It’s a good job and it pays a decent amount and I love it; the people are great. Welding is something that is valuable anywhere you go. It’s a solid skill to have.”*

Eight Michigan community colleges formed the Michigan Coalition for Advanced Manufacturing (M-CAM) to enhance and create training programs in the in-demand areas of welding/fabrication, CNC machining, production operation and multi-skilled/mechatronics.
