

Schoolcraft students are ready to work in CNC machining.

*“This was absolutely the best decision of my entire life,” said Bryan Hall. “With the certificate that I received at **Schoolcraft** through the M-CAM program, I am now a CNC machine operator at Sensor Manufacturing. It allows me to feel good about myself and the fact that I can go to work every day and make a difference.”*

Eight Michigan community colleges formed the Michigan Coalition for Advanced Manufacturing (M-CAM) to enhance and create training programs in the in-demand areas of welding/fabrication, CNC machining, production operation and multi-skilled/mechatronics. m-cam.org/colleges/schoolcraft/schoolcraft.html

M-CAM prepares participants for 21st century jobs in advanced manufacturing.
