Computer Systems Integration (CSI)

Program is designed to prepare students for today's information technology

KVCC's Computer Systems Integration program is a unique blend of computers and business. Students will learn fundamental business practices and how those practices are improved by computer systems. No solution is the same from business to business. Companies need highly trained thinkers who can match the capacity of computer systems with the needs of the people who use them.

- ❖ Earn your degree completely online or attend live sessions
- ❖ Transferable and affordable credits

This workforce product was funded by a grant awarded

*by the U.S. Department of Labor's Employment and Training Administration. The product was created by the grantee and does not necessarily reflect the official position of the U.S. Department of Labor.
