Give the Gift of Education!

The Computer Systems Integration (CSI) Program

IS DESIGNED TO PREPARE
STUDENTS FOR TODAY'S INFORMATION TECHNOLOGY

KVCC's Computer Systems Integration program is a unique blend of computers and business. Students will learn fundamental business practices and how those practices are improved by computer systems. No solution is the same from business-to-business. Companies need highly trained thinkers who can match the capacity of computer systems with the needs of the people who use them.

flexible classes
meeting your needs

> "Business and technology are inseparable. CSI Students integrate the right technology at the right time."
>
> *Michael Campbell*
> *KVCC's CSI Instructor*

ONLINE AND LIVE SESSIONS

CSI course delivery is unique, providing students with the flexibility of attending classes on site or online.

TRANSFERABLE AND AFFORDABLE CREDITS

CSI graduates have the opportunity to continue their studies towards the completion of a bachelors degree. KVCC's tuition is among the lowest in New England.

CAREER OPPORTUNITIES:

- **SYSTEMS INTEGRATION MANAGER**
- **TEST MANAGER**
- **SYSTEMS CONSULTANT**
- **COMPUTER RESOURCE MANAGER**
- **COMPUTER SUPPORT SPECIALIST**

BUSINESS SYSTEMS INTEGRATION

CSI Students will use information systems to solve business problems everyday.

DATA SYSTEMS ANALYSIS

CSI Students will utilize the development lifecycle system which includes: process flows, data flows, data structure, file designs, input and output designs, and program specifications.

NETWORK DESIGN AND MANAGEMENT

CSI Students will implement and administer networks and distribute applications that are essential in today's business world.

INFORMATION SYSTEMS SECURITY

CSI Students will identify security implications of databases and apply techniques to assess risks of systems.
