Looking for a new career?
Associate of
Applied Science-Technology
Advanced Manufacturing
Alternative Energy
Technology Management

A degree or certificate in Technology, with options in advanced manufacturing, alternative energy or technology management, from Missouri State University-West Plains will prepare you for a career in an industry that demands technical and skilled labor. Professionals in this field hold such positions as installation technicians, maintenance technicians, electrical technician, production/planning/expediting clerks and more.

Skills you will learn include the following:

- **Alternative Energy:** Biofuels, solar/wind energy, sustainable agriculture & environment
- **Manufacturing Technology:** Welding, electricity/electronics, manufacturing technology
- **Technology Management:** Safety, supply chain, quality and project management

Career development assistance is available. Classes start August 22.
