Dear Student:

Welcome to Pharmacy Technician Program at Los Angeles Mission College. This Student Handbook was written to inform and assist you in your progress through our program. The information in this handbook and the college catalog should give you some insight on what you will experience in this program and help prepare you for the courses. Please note that you are responsible for knowing and observing Los Angeles Mission College's (LAMC) policies and procedures as listed in the college catalog.

The pharmacy technician program is designed to prepare the students for a career in pharmacy. Upon successful completion of the required coursework, students are eligible to apply for the State of California Pharmacy Technician licensure and are prepared to work in a pharmacy setting.

Please feel free to share any comments, questions, or concerns you may have about the program. We wish you much success in your endeavor in the Pharmacy Technician profession.

COURSE PREPARATION

Students are encouraged to complete assignments prior to the class period for which the assignment is designated. Students are also encouraged to meet frequently with course instructors to clarify their understanding of course material. Faculty expect students to strive for excellence in all aspects of the program. This requires making coursework the highest of priorities.

GRADING PROCEDURES

The program curriculum is scheduled in a sequence of courses. All courses must be completed with a minimum grade of "C" in order to continue in the program. Examinations are a reflection of your didactic and externship performance.

The faculty encourage an atmosphere of cooperation and non-competitiveness to achieve the goals and objectives of the program. The only discussion of grades should occur between the student and the faculty member rendering the evaluation.

It is the responsibility of the student to seek help and/or clarification with the course instructor. Please refer to the [LAMC catalog](#) for further information on grading policies and procedures.

OFFICE HOURS

All faculty will hold office hours devoted to helping students as specified in their syllabi. Please make appointments to see faculty if necessary. All faculty should provide a supportive learning environment, and look forward to working with you during your matriculation through the program.

TEXTBOOKS

Textbooks are required by the course instructor and department to assist the student in achieving the goals and objectives of the course. A health care professional will build a library throughout his/her studies that can be used for reference purposes throughout a professional career. Textbooks in the health areas are updated frequently. Students should check with the course instructor before purchasing used textbooks.
