Page 1: After reviewing the LB iLearn course, complete the following questions based on your expertise.

Q1 What is the name of the course you are evaluating?

CIS 125 Intro to Software Applications

Q2 Describe the background, expertise, experience, qualifications and education that make you qualified as a Subject Matter Expert to review this course.

See resume/vita.

Q3 Are the outcomes for the course appropriate to what students should be able to do or know to be successful in the profession and/or field?

Yes,

Explain.:

This is a Microsoft Office introduction, which might be worth mentioning in the title. Otherwise, you may want to add web/cloud-based applications or other software applications for document, spreadsheet, and presentation creation.

Typo/update in description: Presentation software will be use to ... Typo/update in outcome: Presentation software -- Use the features of a presentation program

Q4 Do the skills taught in the course prepare students for the profession?

No,

Explain:

I think they should be familiar with more applications than just Microsoft. Maybe exposing students to Mac software such as pages, numbers, etc. and/or web/cloud-based applications.

Q5 Does the course holistically contain appropriate content related to the profession?

Yes

Q6 What recommendations so you have for improvement that would make the course better align with the profession?

What about web/cloud-based and/or Mac applications for documents, spreadsheets, and presentations?

Q7 What content needs to be developed to meet upcoming industry needs?

Prezi for presentation application.
