Q3 Are the outcomes for the course appropriate to what students should be able to do or know to be successful in the profession and/or field?

Yes,

Explain.:

Course outcomes include all orthodox economics topics of today macro-economy.

Q4 Do the skills taught in the course prepare students for the profession?

Yes,

Explain:

Basic graphing and data analysis instruction and resources are provided. Students grasp the skills with repeated practices. Self-check activity builds up self-efficacy, and each success raises student self-efficacy. Grading rubrics and feedback are clear, prompt, and continuous, which reinforce students learning. Suggest to add discussion topics. Discussions that ask learners to draw on their experiences and reflect on what they know.

Q5 Does the course holistically contain appropriate content related to the profession?

Explain:

All are lined up and matching, and go back to the course outcomes.

Q6 What recommendations so you have for improvement that would make the course better align with the profession?

Update the macro data in the lecture materials, or provide macro data links and suggested web site for data research and analysis and application. For example, the NBER, Fed Reserve, CBO, etc.

Q7 What content needs to be developed to meet upcoming industry needs?

See 6.
