#	RESPONSES	DATE
1	N/A	8/28/2017 3:12 PM
2	It was educational and fun.	8/28/2017 3:10 PM
3	I enjoyed this clinical experience. Allowing us to review the scenario before hand really helped us work well as a team.	8/28/2017 3:09 PM
4	I think practice makes perfect due to reviewing skills	8/28/2017 2:39 PM
5	I enjoy the simulated clinical experience, it gives us an opportunity to gain hands on experience first hand.	8/28/2017 2:35 PM
6	I just feel like we should be more prepared and organized. Make sure we have all the equipment that is necessary for the simulated lab area and we are well aware where everything is and if we are not we can ask someone with getting answered, we have not gotten answers about the locations for our equipment needed for the sims and which made is difficult to perform a good experience.	8/28/2017 11:10 AM
7	I feel like the simulation was great for giving a better understanding on how a medical team works together. I do have more learning to do. I also feel it helped me find my weaknesses, and how to change them in a confident manner. This simulation gave me a better understanding of myself and my team.	8/28/2017 11:07 AM
