HEALTH INFORMATION MANAGEMENT AT WEBER STATE UNIVERSITY

LEARN TO ACQUIRE, SECURE AND ANALYZE HEALTHCARE DATA

22% JOB GROWTH

Healthcare is one of the fastest growing industries in the country and represents the largest increase in new jobs. The Bureau of Labor Statistics cites Medical Records and Health Information Technicians as one of the 20 fastest growing occupations in the U.S. As new technologies and legislation continue to impact the healthcare sector, the demand for managing healthcare information has never been greater.

EMERGING FIELD

Health Information Management (HIM) is a rapidly emerging field within the healthcare industry. HIM professionals work with acquiring, analyzing, and protecting electronic health records. These highly trained professionals work with the latest technologies to manage, secure and protect healthcare information and data. They are vital parts of healthcare organizations of all sizes from private physician offices to large hospitals complexes.

CAREER OPPORTUNITY

A wide variety of jobs are available in HIM, from Health Information Technicians to Data Analysts and Directors of Health Information Services. HIM professionals may vary in education level from high school diploma to graduate degree; all HIM jobs require specialized training that is available at Weber State.

THREE PROGRAMS TO CHOOSE FROM

All programs are available online and over 250,000 HIM jobs nationwide.

CERTIFICATE

HEALTHCARE CODING

Learn the coding schemes for outpatient and inpatient healthcare services. This 10-course program qualifies you to take the Certified Coding Associate (CCA) exam. The education you receive during the Healthcare Coding Certificate can be used toward the associate's degree, and that education can be used toward the bachelor's degree.

2-YEAR DEGREE

ASSOCIATE'S OF APPLIED SCIENCE

Learn technical functions such as coding diseases and operations, releasing medical information appropriately, maintaining statistical measures, using related computer application software and supervising employees. When you have finished this program, you are qualified to take the Registered Health Information Technician (RHIT) exam.

4-YEAR DEGREE

BACHELOR'S OF SCIENCE

Develop a background in information systems technologies and their application to the provision of health care, advanced statistical procedures and management applicable to information systems, human resources and quality improvement in healthcare. When you have successfully completed the program, you are qualified to take the Registered Health Information Administrator (RHIA) exam.
