### **Q3 Which part of the webinar did you find most valuable?**

Answered: 18

Skipped: 9

It was helpful to hear first hand actions and results.

9/18/2017 1:44 PM

Evaluation of past credits and their possible documentation sources

9/11/2017 9:26 AM

The education video was very helpful. The Q&A CCRI was excellent

9/8/2017 8:10 PM

The use of CAEL PLA Accelerator information.

9/8/2017 3:27 PM

Statistics from CCRI on increased student use of PLA and how they're using PLA Accelerator.

9/8/2017 1:55 PM

Thinking of credit for prior learning as an "Accelerated Pathway"

9/8/2017 11:35 AM

Various tests available to evaluate prior knowledge and experience

9/8/2017 10:26 AM

The work done by the Community College in RI, the videos they collected and the tools they created to encourage students to request PLA.

9/8/2017 10:11 AM

Finding out that colleges are finally recognizing the gap between personal talent and employment opportunities and creating a fast track to integrate prior learning and understanding that students are not getting the counsel they need to be productive towards their career path.

9/8/2017 9:15 AM

tour of CCRI's prior learning website

9/8/2017 8:52 AM

The discussion around how the credits are posted or awarded on the students transcripts. Also, the coding process that is being incorporated by CCRI. I would have been better received, I believe, if that information was included on the PowerPoint.

9/7/2017 10:04 PM

The breakdown of the steps utilized during the CCRI project.

9/7/2017 5:33 PM

hearing of the success in: 1: changing the traditional process so quickly, particularly at a large, multi-campus school; 2: how organized and multi-dimensional the process was; 3: how well the state was brought into the program.

9/7/2017 5:21 PM

I could not get into the webinar, even though I downloaded the Adobe software 4 times. I was able to hear the presentation (through my computer) and to use the downloaded powerpoint.

9/7/2017 5:13 PM

The state is considering new options for high school equivalency and this webinar pointed to the benefits of allowing credit for prior learning (which our high school already does on a small scale)

9/7/2017 5:08 PM

Models for identifying and communicating prior learning opportunities

9/7/2017 5:07 PM

How CCRI was able to offer the most credits toward degree

9/7/2017 5:06 PM

Direct answers to specific questions.

9/7/2017 5:06 PM

#### **Q4 Which part of the webinar did you find least valuable?**

Answered: 16

Skipped: 11

The slides did not advance with the speaker about half way into the presentation. It took me quite some time to figure out I could view the slides by another method within the system.

9/18/2017 1:44 PM

none

9/11/2017 9:26 AM

Na

9/8/2017 8:10 PM

The presentation was more than I expected. I the information was invaluable.

9/8/2017 3:27 PM

The videos.

9/8/2017 1:55 PM

all info valuable

9/8/2017 11:35 AM

Too quick of a representation of the website used by students seeking credit

9/8/2017 10:26 AM

Some of the material was identical to a CAEL PLA presentation I had attended previously.

9/8/2017 10:11 AM

N/A

9/8/2017 9:15 AM

I can't think of a least valuable part.

9/8/2017 8:52 AM

The first video about the car.

9/7/2017 10:04 PM

-

9/7/2017 5:33 PM

the webinar's technical problems were unfortunate. It is also unfortunate that one of the slides had a possible derogatory connotation.

9/7/2017 5:21 PM

Stuff about CCRI

9/7/2017 5:13 PM

As a HiSET instructor, we do not have much opportunity to give credit for prior learning.

9/7/2017 5:08 PM

the videos did not show up/ only audio and ppt

9/7/2017 5:06 PM

**Q5 Was there anything else you think should have been covered in the webinar that was not?**

Answered: 14

Skipped: 13

More on credits for courses taken from International institutions.

9/11/2017 9:26 AM

No

9/8/2017 8:10 PM

Not at this time

9/8/2017 3:27 PM

More statistics. I would have liked to see more detail on using sharepoint for portfolio preparation.

9/8/2017 1:55 PM

College policy developed/followed to evaluate courses/training etc and award credit Who does it? Based on what criteria?

9/8/2017 11:35 AM

More of the process- who made the decisions, is there a national body that oversees this for community colleges?

9/8/2017 10:26 AM

Colleges should learn how to utilize local 501(c)(3) non-profit organizations as a leveraged resource to connect their students to internships that will assist their students in receiving prior learning education especially for those students who do not have a workforce background. Don't just look at the "huge" organizations but pay attention to grassroots organizations that are doing the work and utilize the connection to grow those organizations while simultaneously helping the student gain experiential learning.

9/8/2017 9:15 AM

Nicely done.

9/8/2017 8:52 AM

I would have liked to see more about institutional challenge exams or other accelerated pathways the college had implemented for success and retention.

9/7/2017 10:04 PM

No

9/7/2017 5:33 PM

CAEL should have been defined/described early in the presentation. It is a super resource and I think many were sidetracked trying to figure what/who CAEL was. Also when answering the pricing question, perhaps it could have been added that CAEL tailors unique interventions and solutions and as one would expect pricing is commensurate with the scope of each project. I do agree with the presenter that it is important to mention the disclosure of specific pricing is governed by contract. I liked that the presenter noted that the cost was far less than what one would expect.

9/7/2017 5:21 PM

no

9/7/2017 5:13 PM

How it would apply to high school equivalency programs.

9/7/2017 5:08 PM

As usual, there is much more detail on operations behind the systems described - those would be helpful, but difficult to do in a webinar. Overall, excellent

9/7/2017 5:07 PM

**Q6 Do you have any other comments, questions, or concerns?**

Answered: 13

Skipped: 14

Good training!

9/11/2017 9:26 AM

Thank you, this was my first webinar with you and it was excellent!

9/8/2017 8:10 PM

Is this information able to be shared by educational institutions developing a PLA program?

9/8/2017 3:27 PM

no

9/8/2017 11:35 AM

Create revenue and pathways for existing organizations to assist colleges and universities with this dynamic task. It is a lot of work and will take a big team to meet the demand of accelerating pathways for students in colleges and connecting them to their personal vocation. Research those organizations who align with the mission and bring them aboard as consultants to assist.

9/8/2017 9:15 AM

The audio was not neat, sometimes I could hear the video playing when the guy from CCRI was talking. Sometimes the presentation was cut off, the same happened with the very first video.

9/8/2017 8:54 AM

Thanks for providing this webinar. It's content is of value to my college.

9/8/2017 8:52 AM

Very nice job.

9/7/2017 5:33 PM

was not able to type in questions and not sure if it was at my end or a Workforce GPS setting I was not turning on. This is my 6th WGPS webinar and all of them have been topnotch and super helpful!

9/7/2017 5:21 PM

problems with webinar software--very frustrating.

9/7/2017 5:13 PM

None.

9/7/2017 5:08 PM

I had some difficulty with audio and I couldn't see one of the videos - otherwise everything went well.

9/7/2017 5:07 PM

This is a great opportunity to get more people quickly certified and into well paying careers, thus becoming happy and productive members of society.

9/7/2017 5:06 PM
