BUYER

Did you know that supply chain management affects all industries? Supply Chain Management is a critical function in any company that brings products or service to market. The LINCS Supply Chain Management program introduces you to this exciting field while preparing you for a multitude of supply chain positions across various functions. The non-credit program includes eight certification classes that combine online and/or face-to-face learning. At the end of each six-week course, you will have the opportunity to earn a national industry certification endorsed by the Council of Supply Chain Management Professionals (CSCMP). Start on your path to a successful career!
