

Lesson 2 Assignments

Assignment 1.2

Metrics associated with the EHR system implementation project differ from metrics that are important once the system goes live and the contract becomes the reference point. Please explain the difference between Contract and Project metrics.

Assignment 1.3

Search the Internet and find an image of a person dressed appropriately for a business interview or meeting. Upload your picture to the discussion board (create a thread). Please use only .png or .jpg format for the image files. Remember you can use your snipping tool (on Windows machines) to snip the image and save as a .png file format. Explain why you feel it is appropriate for a business interview or meeting. Comment on at least one other students thread about the picture they uploaded.
