

OB MALPRESENTATION

Estimated Time: 15 minutes

Scan to Begin

SCENARIO OVERVIEW

In this serious game, various images of fetal presentations, fetal lie, and presenting parts are provided for identification by the student. The purpose of this game is to practice identifying these conditions before caring for a patient in labor in simulation and/or clinical practice. (See Overview of Serious Games document for further instructions.)

INSTRUCTIONS

Instruct the student(s) to scan the Start QR Code to begin the game. Questions will include images and multiple-choice questions asking the student to identify the correct malpresentation, fetal lie or presenting part. Stars are earned for each correct answer with a final score provided at the end of the game. Students may be instructed to obtain a screen shot of their final score to provide to the instructor.

LEARNING OBJECTIVES

1. Correctly interpret fetal malpresentations
2. Identify parts of the maternal pelvis
3. Differentiate the meaning of fetal lie, presentation, and presenting part

CURRICULUM MAPPING

WTCS NURSING PROGRAM OUTCOME

Provide patient centered care by utilizing the nursing process across diverse populations and health care settings

- Plan nursing care during uncomplicated labor and delivery

SURVEY

Print this page and provide to students.

Students, please complete a brief (2-3 minute) survey regarding your experience with this ARISE simulation. There are two options:

1. Use QR Code: Survey
 - a. Note: You will need to download a QR Code reader/scanner onto your own device (smartphone or tablet). There are multiple free scanner apps available for both Android and Apple devices from the app store.
 - b. This QR Code will not work in the ARIS app.

2. Copy and paste the following survey link into your browser.
 - a. https://irevtc.co1.qualtrics.com/SE/?SID=SV_6Mwfv98ShBfRnBX
