

## Medical Terminology

This course in medical terminology will be one of the most unusual courses you have ever experienced. You will be taught how to learn and how to remember. You will learn the meanings of 350 Latin and Greek word parts. These word parts are called elements. The 350 elements taught in this course will enable you to interpret and understand over 11,000 medical terms.

This course also allows for self-paced, competency-based, individualized student training. There are a series of objectives and one competency that you will master as you complete this course.

### Competency

Upon completion of this course, you will be able to:

- Memorize and utilize associations to retain the meaning of Latin and Greek language elements used to define and interpret over 11,000 complex medical terms.

Read the **syllabus** by clicking on the following link: [KMCB 0121 Medical Terminology Syllabus.doc](#) to understand the expectations for this course. The instructor will go through the syllabus and review the textbook with you on your first day of class.

In the left navigation bar is a Course Tools menu. It provides information about what tools you need for the course and how to navigate in Canvas.

Start the course with **Lesson 1** below by clicking on the module icon below. You can also click on the **Modules** link in the left navigation bar. Remember to complete each lesson in the order below.

## Lesson 1: Introduction

Do you know what the largest gland is in the body? Do you know how much your liver weighs and how long your intestines are? You will get the answers in Lesson 1!

At the end of this lesson, you will be able to:

- Combine the roots, prefixes, and suffixes to form medical terms.
- Write the meaning of medical elements.
- Apply cognitive memorization techniques for retaining medical terminology.

## Lesson 1: Instructions

In this lesson, you will learn how to combine and recall word elements for 25 new medical terms. You will also learn and memorize the definition of each term.

For Lesson 1, you will need to:

- Go to campus and watch the lesson video. As you are watching the video, repeat the elements in your mind.
- Read Lesson 1, pages 7 - 23.
- Make flash cards for the 25 new words, (use the **REVIEW** section of the lesson to make flash cards), and complete a worksheet. You are required to know the term or terms in the **gray column** on the right in the Review Section of the lesson. Make sure you read the lesson **before** downloading and doing the worksheet located in Canvas for each lesson.
- Complete [Lesson 1 Worksheet](#)

Settings

- [Preview](#)
- [Download](#)
- [Alternative formats](#)

. Follow the directions on the worksheet. Check your answers against [Lesson 1 Worksheet Answer Key](#)

Settings

- [Preview](#)
- [Download](#)
- [Alternative formats](#)

- Complete end of lesson activities on pages 24 - 26.
- Check your answers using the answer keys on pages 287 - 292.

Once you have completed the above activities, go to Study Aids to practice memorizing the terms.

## Lesson 1: Study Aids

For Lesson 1, use the following study aids to help you study and memorize the terms in this lesson. You can make your own flash cards on Study Stack, which is highly recommended. Or you can write the words on 3x5 index cards.

- [Lesson 1: Flash Card](#) - Flash cards with medical terminology you will need to know.
- [Lesson 1: Matching Game](#) - A game that helps you apply your knowledge by matching the terms to their definitions. A lovely picture is revealed when you succeed.
- [Lesson 01 Check Your Knowledge](#). (Optional) - To help you study, use this Check Your Knowledge activity.
- [Study Stack \(Links to an external site.\)](#)[Links to an external site.](#) - Free website that allows you to build your own flash cards or use already created flash cards. Use the **REVIEW** section at the end of the chapter to make your flash cards.
- [Study Stack Apps \(Links to an external site.\)](#)[Links to an external site.](#) - If you have a mobile device, you might want to use the app to help you study while on the go.

When you feel confident you know the medical terms in this lesson, check your knowledge by taking Practice Quiz 01. You may retake the Practice Quiz to solidify your understanding of the terms. Passing with 80% or higher will enhance your ability to pass the comprehensive final exam at the end of the course.

## Quiz 01 - Requires Respondus LockDown Browser

### Instructions

When you are ready to take the lesson quiz, meet with your instructor. You will be given terms in which you must type the correct meanings. Spelling counts. You must pass this exam with 80% or higher. When you have passed this practice quiz, click Next to continue.

## Lesson 2: Introduction

Did you know that two different medical terms can have the same meaning? For example, **neph** means kidney and **ren** means kidney. However, one term will refer to the anatomical body part, while another term refers to a condition or therapeutic procedure. Neph is used to name the conditions affecting the kidneys and ren refers to the actual kidney.

Four other medical terms that are similar in nature are cerebr, psych, cephal, and crani. **Cerebr** is the mass of tissue in the head we refer to as the brain. **Crani** is the skull or bone structure that protects the brain. **Cephal** refers to the entire head itself, and **psych** is the “mind” which is used to express processes taking place in the brain. Learn more in Lesson 2.

At the end of this lesson, you will be able to:

- Combine the roots, prefixes, and suffixes to form medical terms.
- Write the meaning of medical elements.
- Apply cognitive memorization techniques for retaining medical terminology.

## Lesson 2: Instructions

In this lesson, you will learn how to combine and recall word elements for 25 new medical terms. You will also learn and memorize the definition of each term.

For Lesson 2, you will need to:

- Go to campus and watch the lesson video. As you are watching the video, repeat the elements in your mind. If you are at home, you can repeat it out loud. If in class, repeat to yourself.
- Read pages 28 - 45.
- Make flash cards for the 25 new words, (use the **REVIEW** section of the lesson to make flash cards), and complete a worksheet. You are required to know the term or terms in the **gray column** on the right in the Review Section of the lesson. Make sure you read the lesson **before** downloading and doing the worksheet located in Canvas for each lesson.
- Complete [Lesson 2 Worksheet](#)

Settings

- [Preview](#)

- [Alternative formats](#)

. Follow the directions on the worksheet. Check your answers against [Lesson 2 Worksheet Answer Key](#)

Settings

- [Preview](#)
- [Download](#)
- [Alternative formats](#)
- Complete end of lesson activities on pages 46 - 48
- Check your answers using the answer keys on pages 287 - 292.

Once you have completed the above activities, go to Study Aids to practice memorizing the terms.

## Lesson 2: Study Aids

For Lesson 2, use the following Study Aids to help you study and memorize the terms in this lesson. You can make your own flash cards on Study Stack, which is highly recommended. Or you can write the words on 3x5 index cards.

- [Lesson 2: Flash Card](#) - Flash cards with medical terminology you will need to know.
- [Lesson 2: Matching Game](#) - A game that helps you apply your knowledge by matching the terms to their definitions. A lovely picture is revealed when you succeed.
- [Lesson 02 Check Your Knowledge](#). (Optional) - To help you study, use this Check Your Knowledge activity.
- [Study Stack \(Links to an external site.\)Links to an external site.](#) - Free website that allows you to build your own flash cards or use already created flash cards. Use the **REVIEW** section at the end of the chapter to make your flash cards.
- [Study Stack Apps \(Links to an external site.\)Links to an external site.](#) - If you have a mobile device, you might want to use the app to help you study while on the go.

When you feel confident you know the medical terms in this lesson, check your knowledge by taking Practice Quiz 02. You may retake the Practice Quiz to solidify your understanding of the terms. Passing with 80% or higher will enhance your ability to pass the comprehensive final exam at the end of the course.

## Quiz 02- Requires Respondus LockDown Browser

### Instructions

When you are ready to take the lesson quiz, meet with your instructor. You will be given terms in which you must type the correct meanings. Spelling counts. You must pass this exam with 80% or higher. When you have pass this practice quiz, click Next to continue.

## Lesson 3: Introduction

Did you know that the biblical giant Goliath had the ‘oldest disease in the world?’ Do you know what that is? You learned in lesson 1 that *megal* means enlarged. In Lesson 3 you will learn that *acro* means *extremities* (toes, fingers, feet, hand, wrists, ankles, arms and legs). The disease Goliath had was acromegaly—*enlargement of the extremities* more commonly known as gigantism. Read: [She’s 6-foot-6, 480 pounds ... and still growing \(Links to an external site.\)Links to an external site.](#). How many new words can you create from the elements you will learn in this lesson?

At the end of this lesson, you will be able to:

- Combine the roots, prefixes, and suffixes to form medical terms.
- Write the meaning of medical elements.
- Apply cognitive memorization techniques for retaining medical terminology.

## Lesson 3: Instructions

In this lesson, you will learn how to combine and recall word elements for medical terms. You will also learn and memorize the definition of each term.

For Lesson 3, you will need to:

- Go to campus and watch the lesson video. As you are watching the video, repeat the elements in your mind. If you are at home, you can repeat it out loud. If in class, repeat to yourself.
- Read pages 50 - 64.
- Make flash cards for the 25 new words, (use the **REVIEW** section of the lesson to make flash cards), and complete a worksheet. You are required to know the term or terms in the **gray column** on the right in the Review Section of the lesson. Make sure you read the lesson **before** downloading and doing the worksheet located in Canvas for each lesson.
- Complete [Lesson 3 Worksheet](#)

Settings

- [Download](#)
- [Alternative formats](#)

. Follow the directions on the worksheet. Check your answers against [Lesson 3 Worksheet Answer Key](#)

Settings

- [Preview](#)
- [Download](#)
- [Alternative formats](#)

- Complete end of lesson activities on pages 65 - 67.
- Check your answers using the answer keys on pages 287 - 292.

Once you have completed the above activities, go to Study Aids to practice memorizing the terms.

## Lesson 3: Study Aids

For Lesson 3, use the following study aids to help you study and memorize the terms in this lesson. You can make your own flash cards on Study Stack, which is highly recommended. Or you can write the words on 3x5 index cards.

- [Lesson 3: Flash Card](#) - Flash cards with medical terminology you will need to know.
- [Lesson 3: Matching Game](#) - A game that helps you apply your knowledge by matching the terms to their definitions. A lovely picture is revealed when you succeed.
- [Lesson 03 Check Your Knowledge](#). (Optional) - To help you study, use this Check Your Knowledge activity.

- [Study Stack \(Links to an external site.\)](#)[Links to an external site.](#) - Free website that allows you to build your own flash cards or use already created flash cards. Use the **REVIEW** section at the end of the chapter to make your flash cards.
- [Study Stack Apps \(Links to an external site.\)](#)[Links to an external site.](#) - If you have a mobile device, you might want to use the app to help you study while on the go.

When you feel confident you know the medical terms in this lesson, check your knowledge by taking Practice Quiz 03. You may retake the Practice Quiz to solidify your understanding of the terms. Passing with 80% or higher will enhance your ability to pass the comprehensive final exam at the end of the course.

## Quiz 03 - Requires Respondus LockDown Browser

### Instructions

When you are ready to take the lesson quiz, meet with your instructor. You will be given terms in which you must type the correct meanings. Spelling counts. You must pass this exam with 80% or higher. When you have passed this practice quiz, click Next to continue.

## Lesson 4: Introduction

Find out in this lesson how many jointed bones begin at the back of the head, extend through the neck and back and end at the tailbone. Also find out what the jointed bones are called and what the medical element is that refers to that area of the body.

At the end of this lesson, you will be able to:

- Combine the roots, prefixes, and suffixes to form medical terms.
- Write the meaning of medical elements.
- Apply cognitive memorization techniques for retaining medical terminology.

## Lesson 4: Instructions

In this lesson, you will learn how to combine and recall word elements for medical terms. You will also learn and memorize the definition of each term.

For Lesson 4, you will need to:

- Go to campus and watch the lesson video.
- As you are watching the video, repeat the elements in your mind. If you are at home, you can repeat it out loud. If in class, repeat to yourself.
- Read pages 70 - 83.
- Make flash cards for the 25 new words, (use the **REVIEW** section of the lesson to make flash cards), and complete a worksheet. You are required to know the term or terms in the **gray column** on the right in the Review Section of the lesson. Make sure you read the lesson **before** downloading and doing the worksheet located in Canvas for each lesson.
- Complete [Lesson 4 Worksheet](#)

Settings

- [Preview](#)

- [Download](#)
- [Alternative formats](#)

. Follow the directions on the worksheet. Check your answers against [Lesson 4 Worksheet Answer Key](#)

Settings

- [Preview](#)
- [Download](#)
- [Alternative formats](#)

- Complete end of lesson activities on pages 84 - 86.
- Check your answers using the answer keys on pages 287 - 292.

Once you have completed the above activities, go to Study Aids to practice memorizing the terms.

## Lesson 4: Study Aids

For Lesson 4, use the following study aids to help you study and memorize the terms in this lesson. You can make your own flash cards on Study Stack, which is highly recommended. Or you can write the words on 3x5 index cards.

- [Lesson 4: Flash Card](#) - Flash cards with medical terminology you will need to know.
- [Lesson 4: Matching Game](#) - A game that helps you apply your knowledge by matching the terms to their definitions. A lovely picture is revealed when you succeed.
- [Lesson 04 Check Your Knowledge](#). (Optional) - To help you study, use this Check Your Knowledge activity.
- [Study Stack \(Links to an external site.\)](#)[Links to an external site.](#) - Free website that allows you to build your own flash cards or use already created flash cards. Use the **REVIEW** section at the end of the chapter to make your flash cards.
- [Study Stack Apps \(Links to an external site.\)](#)[Links to an external site.](#) - If you have a mobile device, you might want to use the app to help you study while on the go.

When you feel confident you know the medical terms in this lesson, check your knowledge by taking Practice Quiz 04. You may retake the Practice Quiz to solidify your understanding of the terms. Passing with 80% or higher will enhance your ability to pass the comprehensive final exam at the end of the course.

## Quiz 04 - Requires Respondus LockDown Browser

### Instructions

When you are ready to take the lesson quiz, meet with your instructor. You will be given terms in which you must type the correct meanings. Spelling counts. You must pass this exam with 80% or higher. When you have pass this practice quiz, click Next to continue.

## Lesson 5: Introduction

Do you know what the rough skin that peels as a result of sunburn is called or what another name for organ is? Find out in lesson 5.

At the end of this lesson, you will be able to:

- Combine the roots, prefixes, and suffixes to form medical terms.
- Write the meaning of medical elements.
- Apply cognitive memorization techniques for retaining medical terminology.

## Lesson 5: Instructions

In this lesson, you will learn how to combine and recall word elements for 25 new medical terms. You will also learn and memorize the definition of each term.

- Go to campus and watch the lesson video. As you are watching the video, repeat the elements in your mind. If you are at home, you can repeat it out loud. If in class, repeat to yourself.
- Read pages 88 - 99.
- Make flash cards for the 25 new words, (use the **REVIEW** section of the lesson to make flash cards), and complete a worksheet. You are required to know the term or terms in the **gray column** on the right in the Review Section of the lesson. Make sure you read the lesson **before** downloading and doing the worksheet located in Canvas for each lesson.

- [Preview](#)
- [Download](#)
- [Alternative formats](#)

- Complete end of lesson activities on pages 100 - 102.
- Check your answers from the answer keys on pages 287 - 292.

Once you have completed the above activities, go to Study Aids to practice memorizing the terms.

## Lesson 5: Study Aids

For Lesson 5, use the following study aids to help you study and memorize the terms in this lesson. You can make your own flash cards on Study Stack, which is highly recommended. Or you can write the words on 3x5 index cards.

- [Lesson 5: Flash Card](#) - Flash cards with medical terminology you will need to know.
- [Lesson 5: Matching Game](#) - A game that helps you apply your knowledge by matching the terms to their definitions. A lovely picture is revealed when you succeed.
- [Lesson 05 Check Your Knowledge](#) (Optional) - To help you study, use this Check Your Knowledge activity.

- [Study Stack \(Links to an external site.\)](#)[Links to an external site.](#) - Free website that allows you to build your own flash cards or use already created flash cards. Use the **REVIEW** section at the end of the chapter to make your flash cards.
- [Study Stack Apps \(Links to an external site.\)](#)[Links to an external site.](#) - If you have a mobile device, you might want to use the app to help you study while on the go.

When you feel confident you know the medical terms in this lesson, check your knowledge by taking Practice Quiz 05. You may retake the Practice Quiz to solidify your understanding of the terms. Passing with 80% or higher will enhance your ability to pass the comprehensive final exam at the end of the course.

## Quiz 05 - Requires Respondus LockDown Browser

### Instructions

When you are ready to take the lesson quiz, meet with your instructor. You will be given terms in which you must type the correct meanings. Spelling counts. You must pass this exam with 80% or higher. When you have passed this practice quiz, click Next to continue.

## Lesson 6: Introduction

Did you know that palpebra and blephar both mean eyelid? Which one refers to the actual eyelid and which one is a condition involving the eyelid? Find out in lesson 6.

At the end of this lesson, you will be able to:

- Combine the roots, prefixes, and suffixes to form medical terms.
- Write the meaning of medical elements.
- Apply cognitive memorization techniques for retaining medical terminology.

## Lesson 6: Instructions

In this lesson, you will learn how to combine and recall word elements for 25 new medical terms. You will also learn and memorize the definition of each term

- Go to campus and watch the lesson video. As you are watching the video, repeat the elements in your mind. If you are at home, you can repeat it out loud. If in class, repeat to yourself.
- Read pages 104-114.
- Make flash cards for the 25 new words, (use the **REVIEW** section of the lesson to make flash cards), and complete a worksheet. You are required to know the term or terms in the **gray column** on the right in the Review Section of the lesson. Make sure you read the lesson **before** downloading and doing the worksheet located in Canvas for each lesson.

- Complete [Lesson 6 Worksheet](#)

## MC.1 Lessons 1-6 Quiz- Requires Respondus LockDown Browser

### Instructions

When you are ready to take the mid-final exam, meet with your instructor. You will be given terms in which you must type the correct meanings. Spelling counts. You must pass this exam with 80% or higher.

### Lesson 7: Introduction

Did you know there are three words that all mean **hard** and sound like you are saying the names of the ugly step sisters from Cinderella!? Dura, Scirr(h) and Scler(a) are these words, but they all refer to different parts of the body. Discover what they are in lesson 7.

At the end of this lesson, you will be able to:

- Combine the roots, prefixes, and suffixes to form medical terms.
- Write the meaning of medical elements.
- Apply cognitive memorization techniques for retaining medical terminology.

### Lesson 7: Instructions

In this lesson, you will learn how to combine and recall word elements for 25 new medical terms. You will also learn and memorize the definition of each term.

- Go to campus and watch the lesson video. As you are watching the video, repeat the elements in your mind. If you are at home, you can repeat it out loud. If in class, repeat to yourself.
- Read pages 120-132.
- Make flash cards for the 25 new words, (use the **REVIEW** section of the lesson to make flash cards), and complete a worksheet. You are required to know the term or terms in the **gray column** on the right in the Review Section of the lesson. Make sure you read the lesson **before** downloading and doing the worksheet located in Canvas for each lesson.

- Check your answers from the answer keys on pages 287 - 292.

Once you have completed the above activities, go to Study Aids to practice memorizing the terms.

## Lesson 7: Study Aids

For Lesson 7, use the following study aids to help you study and memorize the terms in this lesson. You can make your own flash cards on Study Stack, which is highly recommended. Or you can write the words on 3x5 index cards.

- [Lesson 7: Flash Card](#) - Flash cards with medical terminology you will need to know.
- [Lesson 7: Matching Game](#) - A game that helps you apply your knowledge by matching the terms to their definitions. A lovely picture is revealed when you succeed.
- [Lesson 07 Check Your Knowledge](#) (Optional) - To help you study, use this Check Your Knowledge activity.
- [Study Stack \(Links to an external site.\)Links to an external site.](#) - Free website that allows you to build your own flash cards or use already created flash cards. Use the **REVIEW** section at the end of the chapter to make your flash cards.
- [Study Stack Apps \(Links to an external site.\)Links to an external site.](#) - If you have a mobile device, you might want to use the app to help you study while on the go.

When you feel confident you know the medical terms in this lesson, check your knowledge by taking Practice Quiz 07. You may retake the Practice Quiz to solidify your understanding of the terms. Passing with 80% or higher will enhance your ability to pass the comprehensive final exam at the end of the course.

## Quiz 07 - Requires Respondus LockDown Browser

### Instructions

When you are ready to take the lesson quiz, meet with your instructor. You will be given terms in which you must type the correct meanings. Spelling counts. You must pass this exam with 80% or higher. When you have pass this practice quiz, click Next to continue.

## Lesson 8: Introduction

Did you know that the ancient Greeks, from whose language this root is taken, believed that the diaphragm was the location of the mind just as we, today, believe that the head (actually the brain) is the location of the mind. It would have been as commonplace for the Greeks to describe a person as having a good “diaphragm” as for us to describe a person as having a good “head”; both usages would indicate a good “mind.” Find out what the real element for mind is in lesson 8.

At the end of this lesson, you will be able to:

- Combine the roots, prefixes, and suffixes to form medical terms.
- Write the meaning of medical elements.

- Apply cognitive memorization techniques for retaining medical terminology.

## Lesson 8: Instructions

For Lesson 8, you will need to:

- Go to campus and watch the lesson video. As you are watching the video, repeat the elements in your mind. If you are at home, you can repeat it out loud. If in class, repeat to yourself.
- Read pages 138-149.
- Make flash cards for the 25 new words, (use the **REVIEW** section of the lesson to make flash cards), and complete a worksheet. You are required to know the term or terms in the **gray column** on the right in the Review Section of the lesson. Make sure you read the lesson **before** downloading and doing the worksheet located in Canvas for each lesson.

- [Download](#)
- [Alternative formats](#)

- Complete end of lesson activities on pages 150 - 152.
- Check your answers from the answer keys on pages 287 - 292.

Once you have completed the above activities, go to Study Aids to practice memorizing the terms.

## Lesson 8: Study Aids

For Lesson 8, use the following study aids to help you study and memorize the terms in this lesson. You can make your own flash cards on Study Stack, which is highly recommended. Or you can write the words on 3x5 index cards.

- [Lesson 8: Flash Card](#) - Flash cards with medical terminology you will need to know.
- [Lesson 8: Matching Game](#) - A game that helps you apply your knowledge by matching the terms to their definitions. A lovely picture is revealed when you succeed.
- [Lesson 08 Check Your Knowledge](#). (Optional) - To help you study, use this Check Your Knowledge activity.
- [Study Stack \(Links to an external site.\)Links to an external site.](#) - Free website that allows you to build your own flash cards or use already created flash cards. Use the **REVIEW** section at the end of the chapter to make your flash cards.
- [Study Stack Apps \(Links to an external site.\)Links to an external site.](#) - If you have a mobile device, you might want to use the app to help you study while on the go.

When you feel confident you know the medical terms in this lesson, check your knowledge by taking Practice Quiz 08. You may retake the Practice Quiz to solidify your understanding of the terms. Passing with 80% or higher will enhance your ability to pass the comprehensive final exam at the end of the course.

## Quiz 08 - Requires Respondus LockDown Browser

### Instructions

When you are ready to take the lesson quiz, meet with your instructor. You will be given terms in which you must type the correct meanings. Spelling counts. You must pass this exam with 80% or higher. When you have passed this practice quiz, click Next to continue.

## Lesson 9: Introduction

Do you know what dyspepsia, collagenogenic, enostosis, labiodental, and rachitis are? Complete lesson 9 to find the answers.

At the end of this lesson, you will be able to:

- Combine the roots, prefixes, and suffixes to form medical terms.
- Write the meaning of medical elements.
- Apply cognitive memorization techniques for retaining medical terminology.

## Lesson 9: Instructions

In this lesson, you will learn how to combine and recall word elements for 25 new medical terms. You will also learn and memorize the definition of each term.

- Go to campus and watch the lesson video.
- As you are watching the video, repeat the elements in your mind. If you are at home, you can repeat it out loud. If in class, repeat to yourself.
- Read pages 154-164.
- Make flash cards for the 25 new words, (use the **REVIEW** section of the lesson to make flash cards), and complete a worksheet. You are required to know the term or terms in the **gray column** on the right in the Review Section of the lesson. Make sure you read the lesson **before** downloading and doing the worksheet located in Canvas for each lesson.

- [Alternative formats](#)
  - Complete end of lesson activities on pages 165 - 167.
  - Check your answers from the answer keys on pages 287 - 292.
- Once you have completed the above activities, go to Study Aids to practice memorizing the terms.

## Lesson 9: Study Aids

For Lesson 9, use the following study aids to help you study and memorize the terms in this lesson. You can make your own flash cards on Study Stack, which is highly recommended. Or you can write the words on 3x5 index cards.

- [Lesson 9: Flash Card](#) - Flash cards with medical terminology you will need to know.
- [Lesson 9: Matching Game](#) - A game that helps you apply your knowledge by matching the terms to their definitions. A lovely picture is revealed when you succeed.
- [Lesson 09 Check Your Knowledge](#). (Optional) - To help you study, use this Check Your Knowledge activity.
- [Study Stack \(Links to an external site.\)](#)[Links to an external site.](#) - Free website that allows you to build your own flash cards or use already created flash cards. Use the **REVIEW** section at the end of the chapter to make your flash cards.
- [Study Stack Apps \(Links to an external site.\)](#)[Links to an external site.](#) - If you have a mobile device, you might want to use the app to help you study while on the go.

When you feel confident you know the medical terms in this lesson, check your knowledge by taking Practice Quiz 09. You may retake the Practice Quiz to solidify your understanding of the terms. Passing with 80% or higher will enhance your ability to pass the comprehensive final exam at the end of the course.

## Quiz 09 - Requires Respondus LockDown Browser

### Instructions

When you are ready to take the lesson quiz, meet with your instructor. You will be given terms in which you must type the correct meanings. Spelling counts. You must pass this exam with 80% or higher. When you have pass this practice quiz, click Next to continue.

## Lesson 10: Introduction

In lesson 10, you will discover the many networks in the body that can be described as branching.

At the end of this lesson, you will be able to:

- Combine the roots, prefixes, and suffixes to form medical terms.
- Write the meaning of medical elements.
- Apply cognitive memorization techniques for retaining medical terminology.

## Lesson 10: Instructions

In this lesson, you will learn how to combine and recall word elements for 25 new medical terms. You will also learn and memorize the definition of each term

- Go to campus and watch the lesson video.
- As you are watching the video, repeat the elements in your mind. If you are at home, you can repeat it out loud. If in class, repeat to yourself.
- Read pages 170-179.
- Make flash cards for the 25 new words, (use the **REVIEW** section of the lesson to make flash cards), and complete a worksheet. You are required to know the term or terms in the **gray column** on the right in the Review Section of the lesson. Make sure you read the lesson **before** downloading and doing the worksheet located in Canvas for each lesson.
