Iowa Lakes Community College is committed to ensuring that all programs and services, including electronic and our website (www.iowalakes.edu), are accessible to people with disabilities. In accordance with the provisions of Sections 504 and 508 of the Rehabilitation Act and the Americans with Disabilities Act (ADA), Iowa Lakes provides students, faculty, staff, and visitors with reasonable accommodations to ensure equal access to the programs and activities of the college. For more information visit: <https://www.iowalakes.edu/educational-counseling-services/accommodations-disability-resources>.

Pat McCoy is an Associate Professor at Iowa Lakes Community College and teaches coursework in Wind Energy and Turbine Technology and Engineering Technology.

Updated in 2017, this course covers an introduction to wind energy and is offered in credit programs in a face-to-face format.

Course Syllabus

Intro to Wind Energy, WTT-104

Class Day/Time
Fall/2017

Iowa Lakes Community College
300 South 18th Street
Estherville, IA 51334

Instructor Name: Patrick McCoy
Office No: 307 (Wind Energy Building)
Phone: 712-362-7993
Fax: 712-362-8392
Email: pmccoy@iowalakes.edu
Office Hours: As posted on office door

Catalog Description: Introduction to Wind Energy students will be exposed to the many facets of the wind industry. This course will cover the history and development of the wind industry, terminology used

This workforce solution is funded in part by the IHUM Consortium which is 100% financed through a \$15,000,000 grant from the U.S. Department of Labor's Employment & Training Administration.

in the industry, basic tools and techniques, wind turbine components, the future of the wind industry, other topics that are appropriate.

Prerequisites: None

Credits: 4 (2 hours of Lecture/4 hours of Lab)

Text & Additional Materials:

Kissel, Thomas. 2012. Introduction to Wind Principles. Prentice Hall (Pearson).

Course Objectives/Competencies:

To provide the student with knowledge of common terminology and general information of the wind industry. The student will become familiar with the various types of turbines, the technology, tools, organizations as well as an outlook on the future of the wind industry.

Course Schedule/Outline (Units of Instruction):

1. Intro to Wind power
2. Wind Energy Basics
3. Wind Turbine Basics
4. Wind Turbine Component Basics
5. Wind Farm Basics

Course Schedule/Outline (Lab):

1. Climb Prep
2. Hand Tool and General Safety
3. Basic Electrical Tool Safety
4. Torque Certification
5. Hydraulic Torque Certification

Methods of Instruction: Course will be covered by two hours of lecture each week and discussion based on reading assignments, site visits, guest speakers and other methods to be determined by instructor. There will also be up to three hours and forty minutes of laboratory work each week that will consist of demonstrations, experiments, research and use of various tools and instruments, as well as other tasks that may be required by instructor.

This workforce solution is funded in part by the IHUM Consortium which is 100% financed through a \$15,000,000 grant from the U.S. Department of Labor's Employment & Training Administration.

Grading Policies:

Scale:	A = 90 – 100%
	B = 80 – 89.99%
	C = 70 – 79.99%
	D = 60 – 69.99%
	F = 00 – 59.99%

Four Exams	= Approximately 630 points possible
Lab Participation	= Approximately 100 points possible
Assignments/Daily Work	= Approximately 300 points possible
Attendance/Participation	= 100 points possible (Lecture only)

Other Expectations:

Students will be expected to conduct themselves as professionals. Students are expected to attend all lecture and labs. If unable to attend lecture, students will notify Instructor by phone / e-mail / in person **before** absence occurs. After the second absence, the student will lose 25 points from Attendance/participation until points are exhausted. All missed exams will be completed one week after exam date. After one week all unfinished coursework will receive a zero. Absenteeism from lab will result in a zero for the day. No exceptions! **The use of cell phones in class is prohibited.** Any student using a cell phone in lab will receive a zero for that lab. Any student using a cell phone during lecture will forfeit 10% of points possible on next exam. Any student with a visible cell phone during an exam will receive a zero on exam.

Important: NO food or drinks in the lab

Students must abide by all policies as stated in the Iowa Lakes Community College Student Handbook.

Students should be aware that classes might be audio or video recorded by one or more students. The college's policies governing the audio or video recording of class are included in the Student Handbook. Students who have any questions or concerns about class recordings should address their questions or concerns with the instructor at the ***beginning of the semester.***

STUDENT ACADEMIC HONESTY POLICY

Iowa Lakes Community College believes that personal integrity and academic honesty are fundamental to scholarship. Iowa Lakes strives to create an environment where the dignity of each person is recognized and an

This workforce solution is funded in part by the IHUM Consortium which is 100% financed through a \$15,000,000 grant from the U.S. Department of Labor's Employment & Training Administration.

The product was created by the grantee and does not necessarily reflect the official position of the U.S. Department of Labor. The Department of Labor makes no guarantees, warranties, or assurances of any kind, express or implied, with respect to such information, including any information on linked sites and including, but not limited to, accuracy of the information or its completeness, timeliness, usefulness, adequacy, continued availability, or ownership.

atmosphere of mutual trust exists between instructors and students. The faculty has confidence in the integrity of the students and encourages students to exercise good judgment in fulfilling this responsibility.

Actions contrary to academic integrity will not be tolerated. Activities that have the effect or intention of interfering with learning or fair evaluation of a student's work or performance are considered a breach of academic integrity. Examples of such unacceptable activities include, but are not limited to:

- **Cheating** (intentionally using or attempting to use unauthorized material, assistance or study aids in my academic work). For example, using a cheat sheet for a test, looking at another student's paper during an exam, stealing or buying all or parts of an exam or paper, altering and resubmitting work for a better grade without prior approval to do so, etc.
- **Plagiarism** (representing another's ideas, words, expressions or data in writing or presentation without giving proper credit, failing to cite a reference or failing to use proper documentation, using works of another gained over the Internet and submitted as one's own work).
- **Falsification and/or misrepresentation of data** (submitting contrived or made-up information in any academic exercise). For example, making up data, citing non-existent sources, etc.
- **Facilitating Academic Dishonesty** (knowingly helping or attempting to help another violate any provision of the academic honesty policy). For example, working together on a take-home exam or other assignment when the option has not been made available, giving a paper/assignment to another student for his/her use, etc.
- **Multiple Submissions** (submitting, without prior approval from the instructor involved, any work submitted to fulfill academic requirements in another class). For example, submitting the same paper for two different classes, etc.
- **Unfair Advantage** (trying to gain unauthorized advantage over fellow students). For example, gaining or facilitating unauthorized access to exam materials (past or present); interfering with another student's efforts in an academic exercise; lying about the need for an extension on a paper or assignment; destroying, hiding, removing or keeping library materials, etc.

Disciplinary Action

Any violation of this policy will be treated as a serious matter. The instructor has primary responsibility over classroom behavior and maintaining academic integrity. Students who earn an "F" based on any violation of the Student Academic Honesty Policy may not withdraw from the class (and receive a grade of W). Depending on the nature and severity of the offense, Iowa Lakes Community College reserves the right to exercise disciplinary action as outlined in the Disciplinary Action Section of the Student Handbook.

Americans with Disabilities Act – Policy of Nondiscrimination

It is Iowa Lakes Community College policy to not discriminate against qualified individuals with disabilities and to provide reasonable accommodation(s), as required by law, to otherwise qualified applicants for admission or to students with disabilities in all education programs, activities, services and practices, including application procedures, admissions, course selection, the awarding of degrees, discipline and dismissal. Educational opportunities will not be denied to an otherwise qualified application or student because of the need to make reasonable accommodation(s) or modification(s) for the physical and mental impairment(s) of any such individual.

Iowa Lakes Community College students needing reasonable accommodation(s) and/or modification(s) should contact Jody Condon by phone at (712) 852-5219 or via email at jcondon@iowalakes.edu. To assure that accommodation(s) and/or modification(s) will be ready when classes start, students must make the request as soon as possible, before a semester begins.
