

Precision Machining

LAKE AREA TECHNICAL INSTITUTE

Be a “Surgeon of Steel!”

Do you like to work with your hands to make something useful? Do you like the idea of a career that has meaning for America? Have you considered becoming a machinist?

Career Opportunities

Machinists are respected and well paid. Virtually everything manufactured in the U.S. today—in the automotive, space, medical, green, or any other industry—can be traced back to the work of a machinist. As a result, there is a constant and unmet need for these “Surgeons of Steel” in American manufacturing.

LATI’s Associate of Applied Science Precision Machining program can get you there!

- Learn manual and computer-controlled machining.
- Project-based learning gives you the maximum experience-edge
- State-of-the-art precision machining lab.
- On campus and hybrid options to get your degree!

Job Placement

Here at Lake Area Tech, we are extremely proud that 98 percent of our graduates are employed or are continuing their education.
