In 2012, TREND partners received \$14.6 million to develop new and enhanced curriculum and credentials; redesign program development and delivery systems; and to offer enhanced support services and career navigation. The Consortium's second grant was awarded in 2014 for \$9.9 million to build upon the first grant's success and increase enrollment and successful completion of participants. The goals of the second TREND grant focus in three main areas:

TREND Consortium Goals

1. Increased training and credentialing in four main sectors - oil and gas, utility, transportation and construction. The consortium is placing an emphasis on career pathways and stackable credentials.
2. Increased retention strategies with student support and career exploration services.

Bismarck State College serves as the lead for both grants. Funding at the colleges is used to add equipment, train faculty and staff, and to provide more services to students to increase their success at college and in the job market.

Shawnee State College is an equal opportunity employer/organization. Accessibility aids and services are available upon request to individuals with disabilities.

TREND Procedure for Veterans Priority of Service (document)

File Size: 283.78 kb

The requirement to provide priority of service applies to all programs that receive funding from the Department of Labor. At Bismarck State College, these programs are those associated with the Training for Regional Energy in North Dakota (TREND) TAACCT grant. All program activities, regardless of how they are procured, must be administered in compliance with priority of service requirements.

Funded by U.S. Department of Labor grant #TC-23750-12-60-A-38 and #TC-26460-14-60-A-38
