

## Lab 3b Questions

### Exercise 1: Explore tables and attributes

- 1 . Do you see attributes that could be used to display a location for each store?
2. Do the attributes look the same as the original Stores\_Data table?

### Exercise 2: Join and relate tables

1. How many records in the Store\_Sales table match *each* record in the Store\_Locations table?
2. What is the cardinality between the Store\_Sales and Store\_Locations tables?
3. What is the cardinality between a store and its customers?
4. How many customer records are in the selection?

**Hint: Look at the bottom of the Customers table.**

College to Careers (C2) is a WIOA Title I – financially assisted program and is therefore an equal opportunity employer/program which provides auxiliary aids and services upon request to individuals with disabilities by calling 711 or 800.648.6458 TTY. The C2 grant project (\$2,394,110) is 100% funded through the US Department of Labor's Trade Adjustment Assistance Community College and Career Training program (TC-26516-14-60-A-41). This workforce solution was funded by a grant awarded by the U.S. Department of Labor's Employment and Training Administration. The solution was created by the grantee and does not necessarily reflect the official position of the U.S. Department of Labor.
