1. Based on the world map projections covered in this lab, which industries would best be served by each projection (provide two examples)? Does the entire industry need to agree on a single one? What problems could arise from the use of different projections?

2. Create two map sheets (1x World, 1x USA), each with 2 maps showing the differences between projections. Provide a brief description on how the map projections are different (think projection properties) and possible implications for map users.

College to Careers (C2) is a WIOA Title I – financially assisted program and is therefore an equal opportunity employer/program which provides auxiliary aids and services upon request to individuals with disabilities by calling 711 or 800.648.6458 TTY. The C2 grant project (\$2,394,110) is 100% funded through the US Department of Labor's Trade Adjustment Assistance Community College and Career Training program (TC-26516-14-60-A-41). This workforce solution was funded by a grant awarded by the U.S. Department of Labor's Employment and Training Administration. The solution was created by the grantee and does not necessarily reflect the official position of the U.S. Department of Labor. The Department of Labor makes no guarantees, warranties or assurances of any kind, express or implied, with respect to such information, including any information on linked sites and including, but not limited to, accuracy of the information or its completeness, timeliness, usefulness, adequacy, continued availability or ownership.
