

Internet Location Resource Handout Summary:

The EPIC Consortium recognized that lack of reliable internet access, especially in the eastern portion of the state, can be a barrier to distance education. Even with a high quality service provider and connection, outages are bound to occur. Computer issues can arise unexpectedly as well. Distance learning students need alternatives for accessing the internet if their home networks or devices become unavailable. Many resources exist in our communities where students can use computers and/or access the internet on their own devices. These include not only our own community college campuses, but public libraries, restaurants, and other locations.

Each EPIC consortium college was tasked with gathering information about the resources available in their own areas and compiling a listing of locations, noting whether computers were available or the student should bring their own device to access WiFi. This resource list was added to our EPIC website so that students, faculty, and staff could access it. A screen shot of this link is below, followed by the full resource document.

RESOURCES

EPIC provides you with multiple resources. Below is a listing (some with links) of available resources that you can access and/or use:

Learn on Demand

EPIC courses are offered via the Learn on Demand online format. The content is delivered in a self-paced, competency-based manner and target the learning you need in order to gain specific knowledge and skills necessary for your career or future studies. During your path to completion the content is designed to offer brief and focused learning activities that help you achieve a mastery understanding of the content and give you numerous opportunities to practice and receive feedback; you can repeat online learning activities as often as you need! This approach enables you to work through the course at your own pace, in your own way, when and where you want to work on it and complete before your end date (based on your start date) established by the course length.

Visit the [Learn on Demand website](#).

Review the Learn on Demand [Student Orientation to Online Learning](#).

Apply for Graduation

About to finish classes? Fill out an application for your degree or certificate from your home college.

Visit the [Apply for Graduation](#) resource page.

EPIC Careers

Learn more about career possibilities for EPIC program completers!

Visit the [Career Data Sheets](#) resource page.

Need Wifi or Computer Access?

There are several locations throughout the EPIC service area in the state of Kentucky where you can access free wifi or use a computer.

Check out the [Wifi Resources PDF](#) for a listing of locations near you.
