

COURSE OUTLINE

Title: Trenching & Excavation Training

Project/Course Number: IHS289

Contact Hours: 4 hours

Project/Course Description:

This course is designed to meet the 29 CFR 1926 – SUBPART P standard for trenching and excavating. Individuals will learn how to demonstrate correct soil classifications and safely identify hazards associated with trenching and excavating. Participants will learn the requirements for protective systems and confined spaces, as well as excavation regulations and fall protection requirements.

Project/Course Goals:

Participants will learn to:

- 29 CFR 1926 - SUBPART P Trenching and Excavations:
- Demonstrate correct soil testing procedures
 - Identify hazards associated with trenching and excavations
 - Understand the different types of protective systems
 - Excavation regulations
 - Confined space
 - Fall Protection

Resources: Qualified instructor and handouts
