

## COURSE OUTLINE

**Title:** Commercial Driver's License Training (CDL)

**Project Course Number:** TRN129

**Contact Hours:** 15

**Project/Course Description:**

This course will include behind-the-wheel training. The focus is to prepare the participant for CDL licensure. The course includes 15-hours of training, 2 hours of pre-trip, 10 hours of behind the wheel and 3 hours of testing. Preparation for testing, and hands-on inspection on the truck are also included.

**Project/Course Goals:**

Upon successful completion the participant will be given the skills needed to obtain a CDL, as well as:

- Understand Brake System Operation and Inspection
- Perform a pre-trip inspection
- Learn trailer specifications
- Learn coupling and uncoupling safely
- Understand Shifting Theory
- Learn Driving Techniques
- Learn how to back tractor-trailers
- Learn how to parallel park tractor-trailers
