Session 2 Case Study - Killing Time

You have been employed as a line worker for the Energy Power Company for several months and have been learning more about the job each day. The crew you work with has been helping you learn the ropes and is starting to depend on you and another new worker. One day the boss sends just the two of you to a nearby site to inventory equipment adding that it should take about two hours to finish and get back before quitting time. When you get there, the job is not as difficult as expected and you are finished within an hour. Your partner suggests stopping on the way back to play video games.

- What do you do?
- What are the possible options?
- What would be the benefits of each option?
- What are some possible consequences of each option?
- Which would you choose and why?
- Why not choose other options?

NOTES:
