INTRODUCTION TO GIS (#1038)

03/29 - 06/07 | Wednesdays at 5 PM - 6:30 PM

This course teaches students valuable GIS concepts and essential ArcGIS software skills through necessary workflows to create and finish projects.

OPEN SOURCE GIS (#1039)

06/14 - 07/19 | Wednesdays at 5 PM - 6:30 PM

This is an introductory course that covers QGIS from the basics. Students will learn to use QGIS for mapping, spatial data processing, and spatial analysis.

FROM DRONE TO MAP

08/23 - 09/27 | Wednesdays at 5 PM - 6:30 PM

Through this course, students will gain knowledge on Drone2Map software and how to use it to create 2D and 3D GIS models using drone captured imagery.

FLOODING MODELING

10/11 - 11/22 | Wednesdays at 5 PM - 7 PM

This course will train and provide professional guidance for the use of RoverFlow2D model, for water risk assessment of urban area.
