

# DIVERSITY, EQUITY AND INCLUSION RUBRIC FOR SUPPLEMENTAL WORKFORCE TRAINING MATERIALS

#### Εουιτγ

The condition and the process together that would be achieved if the identities assigned to historically oppressed groups no longer act as the most powerful predictor of how one fares

#### ACHIEVING EQUITY

ELIMINATE THE ROOT CAUSES OF INEQUITIES THAT REINFORCE OR FAIL TO ELIMINATE DISPROPORTIONAL OUTCOMES

### RACIAL EQUITY

The condition achieved if one's racial and ethnic identity no longer predicts how one fares. To achieve Racial Justice, we need to eliminate policies, practices, cultural messages, and harmful narratives that perpetuate, uphold, or fail to eliminate racism

## NCWE CORE VALUES: <u>HTTPS://www.ncwe.org/page/about</u>

- This rubric seeks to support the intentional development of equitable, diverse, and inclusive (DEI) workforce training materials.
- The tool is not exhaustive and rather is designed to help guide and focus content development around best practices in DEI.
- Many of the suggested guidelines adopt a <u>Universal Design for Learning (UDL)</u> framework and are effective teaching and learning practices.
- A "Comments" section is provided to promote implementation through reflection by individual practitioners or discussion between course designers and instructors.

Content Comments	This module defines the steps to size a cold climate heat pump. This includes a section about understanding the goals and limitations when talking with the homeowner about configuration and sizing approach. The second part is about the load calculations so the homeowner can optimize both heating and cooling.
