

DIVERSITY, EQUITY AND INCLUSION RUBRIC FOR SUPPLEMENTAL WORKFORCE TRAINING MATERIALS

EQUITY

The condition and the process together that would be achieved if the identities assigned to historically oppressed groups no longer act as the most powerful predictor of how one fares

ACHIEVING EQUITY

ELIMINATE THE ROOT CAUSES OF INEQUITIES THAT REINFORCE OR FAIL TO ELIMINATE DISPROPORTIONAL OUTCOMES

RACIAL EQUITY

The condition achieved if one's racial and ethnic identity no longer predicts how one fares. To achieve Racial Justice, we need to eliminate policies, practices, cultural messages, and harmful narratives that perpetuate, uphold, or fail to eliminate racism

NCWE CORE VALUES: <u>HTTPS://www.ncwe.org/page/about</u>

- This rubric seeks to support the intentional development of equitable, diverse, and inclusive (DEI) workforce training materials.
- The tool is not exhaustive and rather is designed to help guide and focus content development around best practices in DEI.
- Many of the suggested guidelines adopt a <u>Universal Design for Learning (UDL)</u> framework and are effective teaching and learning practices.
- A "Comments" section is provided to promote implementation through reflection by individual practitioners or discussion between course designers and instructors.

Content Comments	Evaluating this document scores it in the Fair/Exemplary level. The content is very well organized and easy-to-follow. The author might consider adding images to better represent diverse groups of learners. This learning material does not require students to connect the content to their own lives. The purpose of the document is to help students with their understanding of customer expectations and addressing customer needs in the construction trades. Please consider adding images from the Image Collection Drop Box, see link below.

To what extent the content meets the needs of diverse populations, is considered equitable to user needs, and inclusive of race, religion, age, gender, sexual orientation and/or identity.	 The design and delivery are inclusive and accessible to all learners, taking into account diverse learning styles and needs. The material creates a welcoming and inclusive environment for all learners regardless of identity. 	 The design and delivery are generally inclusive, but some areas may warrant improvement to better accommodate diverse learners. The material creates a positive learning environment for most learners but could do more to be inclusive to all. 	 The design and delivery are not inclusive or accessible to all learners, and do not create a positive learning environment for all. The material does not create a positive learning environment for most learners.

Pedagogy Comments	Overall, this document is well done and scored in the Fair level for pedagogy. This learning material includes a student engagement activity that uses a constructive customer interaction simulation and a check for understanding section consisting of 10 questions. The author might consider adding some additional images to represent diverse groups of learners. See the url links below for additional ideas.
