Georgia State University | ANDREW YOUNG SCHOOL OF POLICY STUDIES

Data Science for Public Service

Join the Discussion

Public leaders and alumni will share their experiences building teams to deploy data science applications for public management and policy. Learn about the technical skills and ethical foundations needed to effectively harness the promise of digital technologies in the public and nonprofit sectors.

Join the Q & A to inform curricula design for your public affairs program.

12:30 - 1:45pm: Industry Panel
2:00 - 3:15pm: Alumni Panel
