FREE TUITION for those who qualify

Jefferson College

Computer Information Systems (CIS)
Computer Support Certificate

Computers in Healthcare

The emergence of medical health records and biomedical technology has led to healthcare providers handling large amounts of increasingly complex data, requiring computers and networks to be in top condition. Maintaining and repairing these devices and networks is a lucrative opportunity for those with the necessary skills.

Why Jefferson College?

The Computer Information Systems – Computer Support Certificate is designed to give you the skills you need, along with the respected industry certifications employers look for. Courses will help you prepare for CompTIA's A+ Computer Technician and Network+ Network Technician certifications, which you will earn throughout an accelerated, 28 week program.

Upon completion, you will receive a Certificate from Jefferson College, and coursework can be applied to an Associate of Applied Science Degree if you wish to further your education.

Career Outlook:

Computer Specialists are in demand, with employment expected to grow. Bureau of Labor statistics project an 18% increase from 2010 to 2020. Entry level positions can pay $25,000 - $30,000 annually.
