About the Program
The National STEM (Science, Technology, Engineering, Mathematics) Consortium (NSC), an alliance of ten community colleges nationwide, is building new training programs in Cyber Technology, Composite Materials, Electric Vehicles, Environmental Technology, and Mechatronics. The Department of Labor is funding the NSC through a $19.7 million Trade Adjustment Assistance Community College and Career Training (TAACCCT) grant targeting workers who have lost their job due to the adverse effects of foreign trade, and other unemployed and underemployed workers. Veterans receive priority of service.

Energize your future with a career in...
ELECTRIC VEHICLES

Electric Vehicle Development Technology Program:

- Train for a new career in as little as one year
- Qualify for automotive jobs such as Development Technician, Electrical Test Technician or Manufacturing Technician
- Prepare yourself to earn SAE International’s Vehicle Electrification Fundamentals and Safety Certificate of Competency
- Learn to succeed on the job:
  - Hands-on, skills-based projects
  - Consistent, convenient, compressed schedule
  - Classroom and online instruction
  - Foundation skills to help you succeed in technical courses
  - Critical thinking and problem solving based on real-life situations
  - Business skills in communication, resume writing, and interview techniques

Is this program right for you?
- Do you have an analytical nature?
- Do you enjoy working with your hands?
- Do you like cars?
- Do you like the idea of working with innovative technology?
- Would you like a high-tech career with a future?

Give us a call today!
