Interested in working in the oil and natural gas industry?

ShaleNET.org serves as the entry point for people interested in a job or career in the oil and natural gas industry. This unique website serves as a one-stop shop where you can watch videos of real people on the job and learn about what it's like to work in the energy industry.

If this sounds like a career for you, you can set up a profile in a few quick steps. A career counselor will be in touch to help you find the best training for you.

"ShaleNET will give you the opportunity to get your foot in the door and, once you do, you are golden!"

Brian Vallarino
ShaleNET Roustabout and CDL graduate

Don't have time to go back to school full-time? Stackable credentials allow you to add on new certifications and skills when it works for you. And with a standardized curriculum, you can continue and finish your education wherever ShaleNET is offered.

Whether it is a three-week short-term training course you are interested in, earning a certificate or going on to graduating with an associate's or bachelor's degree, ShaleNET offers flexibility so that you can focus on your career.

The Well-Site Trainer and Online Learning

The importance of hands-on training is crucial to being able to confidently perform on the job. ShaleNET has installed teaching well-sites at the four partner hubs located at Navarro College in Corsicana, Texas; Stark State College in N. Canton, Ohio; Westmoreland County Community College in Youngwood, PA; and Pennsylvania College of Technology in Williamsport, PA.

"In the Petroleum Technology classes I learned problem solving skills and concepts that will help me succeed in this industry. The instructors push you to do your best and really care about our success."

Leslie Shockley
ShaleNET Petroleum Technology Graduate

ShaleNET is a network of oil and natural gas employers, the public workforce system and training providers made possible by a \$20 million investment by the U.S. Department of Labor. This collaboration has created an industry-led and recognized training, certification, associate's and bachelor's degree programs for careers in the oil and natural gas industry.

By developing a standardized curriculum across several states, including online learning, mapping clear career pathways with the stackable credential model, and using career counselors to provide career guidance, ShaleNET is linking talent to opportunity.
