

# Commercial Laboratory Project 6

## 3/4" EMT Conduit Assignment

(Saddle-Over-Object)

1. Make each conduit bend from the measurements provided.
2. Conduit ends must be reamed to remove sharp edges.
3. Offsets are required at all box locations.
4. All measurements must be within 1/8 inch of specified design.
5. Work is in accordance with the National Electrical Code.
6. Label conduit with your name and submit to Instructor.

Note: Do not exceed 1"  
between conduit and  
object.
