

Mechatronics

Speed Interviewing Event

Anne Arundel Community College invites employers to participate in a Speed Interviewing event featuring Mechatronics students.

Speed Interviews allow employers to quickly interview and meet all students and make a selection for employment or further interviews.

AACC's new Mechatronics Certificate program was designed by the National STEM Consortium, a multi-college collaborative working in partnership with industry subject matter experts to ensure relevance in today's workplace.

NSC programs combine employer contributions, state-of-the-art hands-on lab equipment, and a unique "Core Skills" class that teaches the personal and professional skills and knowledge needed for success in the workplace. Upon successful completion of the program, students will have the opportunity to complete applicable industry-recognized certifications.

Students will complete the 30-credit program in December 2013.

MECHATRONICS CERTIFICATE PROGRAM

COURSES

Mechanical Components and Electric Motors
Pneumatics & Hydraulics
Programmable Logic Controllers
Introduction to Electronic Circuits
Introduction to Robotics
Solid Modeling using Solidworks
Core Skills 1, 2, and 3
Capstone Project

ELIGIBLE CERTIFICATIONS

Certified Solidworks Associate
Siemens Mechatronics System Assistant—Level 1

December 6, 2013
9:00 AM—12:00 PM

Center for Cyber
and Professional
Training
