

Arizona Sun Corridor - Get Into Energy Consortium  
 TAACCCT Round 2 Grant (TC-23759-12-60-A-4)  
 Third Party Review of Curriculum and Related Educational Resources

College	Yavapai
Course Number	ELT212
Course Title	Field Training 2
Item Description	Syllabus, Skills Punch List Table, Punch List description, Course Calendar
Reviewed by	BP
Review Date(s)	January 2016

Course Number	Yes
Course Title	Yes
Course Description	Yes
Pre-requisites	Yes
Co Requisites	Yes

Student learning outcomes and competencies are clearly identified	Yes
---	-----

Required and recommended texts and other materials are clearly identified	Yes	Because this is a lab course I would recommend a statement about proper dress. It seems that PPE should also be addressed
---	-----	---

Description of strategies for student success or available assistance	Yes	It is clear this college has done well providing standardized content to address the services to support student success.
Description of how course prepares student for a certificate or degree	OK	This is not explicit in this course, however one can assume the students are well versed by this point and have a strong understanding of program requirements by this point.
Description of how course/item is relevant or applicable to occupation or industry		<p>This is not readily evident in this syllabus. A statement that outlines the specific skills to be gained and where they are used in industry would be very helpful in the course description.</p> <p>This area could use more clarity. Perhaps this is better covered on each lab activity sheet. I am not able to find anything other than percentage that will indicate success or not. Should be certain to outline what is satisfactory in each assessment. "How does the student know their performance is adequate?" For an example, "Adhering to all safety requirements, the Student will climb and return from a 30 foot pole in xx minutes."</p>
Description of assessments, evaluation, exams and grading process		
Evidence of industry input, review and approval process		I would like to see some evidence of advisory committee engagement in this discussion or a matching to an industry skill standard. While my experience tells me the skills contained here are important, the syllabus needs to prepare the student with who this skill package is important to enable the student to find gainful employment upon graduation.
Evidence of college review and approval process	Not evident	This documentation may be available from the Academic Affairs unit of the college, however it is not readily available in the materials provided.

For items not directly related to a course, any evidence of quality control process

NA

The overall quality is a sufficient representation of college and industry standards

Generally the materials provided for review of this course are a good package. It would be good for the students to have more information on the assessments and expectations to be successful.
