

ITSE 1330 – C# Program Extra Credit

- Use the course material located at:
 - <http://www.austincode.com/itse1330/>
- Program Extra Credit can be completed using content from the following chapters:
 - 00-Welcome! through 16-Database Operations

Requirements (remember to identify the requirements by number):

- Create a Windows Forms application using Visual Studio.
 - Name the Solution and Project Program-ExtraCredit.
 - Output appropriate communication messages to the user.
 - Output appropriate results. In other words, all requirements should be output and identified by number.
 - Submit or Resubmit a previous assignment for which credit was not earned.
1. Output a header in the console: "This is Program-ExtraCredit"
 1. Output a header that states: "This is a submission {or resubmission} or Program X"
 2. Output a thank you message: "Thank you for running Program-ExtraCredit."

TEST – TEST – TEST your application to ensure the specific program requirements are met.

- Use the list above and the common requirements as a confirmation checklist.
- Not meeting all requirements = 0 points for the assignment.
