

*Arduino is an open-source electronics prototyping platform based on flexible, easy-to-use hardware and software. It's intended for artists, designers, hobbyists, and anyone interested in creating interactive objects or environments.*

# ARDUINO PROJECT KIT

## Sample projects:

- Spaceship Interface: Design the control panel for your starship
- Love-O-Meter: Measure how hot-blooded you are
- Color Mixing Lamp: Produce any color with a lamp that uses light as an input
- Mood Cue: Clue people in to how you're doing
- Light Theremin: Create a musical instrument you play by waving your hands
- Crystal Ball: A mystical tool to answer all your tough questions
