Comments Report

Please rank your overall experience with the following services:

If you utilized the CTL for a service not listed above, please describe the service and rate your experience.

- Just always friendly, knowledgeable and helpful staff.

- My recorded lectures have been converted into Camtasia so we can add captions to the lectures to increase accessibility for students. I appreciate the support of CTL in providing this service.

- None that I can think of.

Are there any services that CTL doesn't currently provide that you are interested in?

- Can we extend services to help students improve their technical skills? There's a lot of discussion about Makerspaces in libraries and we would love to have your expertise on making this happen...

- No.

- Not at this time.

What new technologies would you like to learn more about?

- So, related to the above suggestion of creating a makerspace for students like we have for faculty...I guess how to create videos/ powerpoints/etc...for faculty/staff and students!

- There are several things listed above that I didn't know were available, like "authoring tool training sessions." I would like to know what that means!

Provide additional feedback or comments.

- Always very supportive - informative - helpful - and showing new ways to do new things all the time! Great services!

- I really appreciate the CTL staff. You all have been so helpful and patient with me, and I really appreciate your willingness to let me walk in and interrupt with a question. You all have really helped me gain the confidence I needed to use technology in my teaching.

- I would like to be able to access the Learning Objects created that pertain to my subject area.

- LOVE CTL!!!
