11. The instructional materials are appropriately designed for the level of course.	Very	
12. Course assessments measure stated learning objectives and are consistent with course activities and resources.	Very	
13. If applicable, online course materials created by the author or from external sources are in formats that are accessible to students with disabilities.	Very	

COMMENTS: I would be willing to meet with anyone over the New River Campus' regarding this program as I cannot put into words what this has done to help improve the knowledge of the students coming out of the two locations. I have seen such a improvement of providers being produced with both of these curriculums. Please feel free to contact me 304-646-6200
