

## DIVERSIFIED MANUFACTURING TECHNOLOGY CERTIFICATE

### A New Pathway to Manufacturing

#### Four core **DEMT Certificate** introductory courses:

- Open to students scoring at low placement test levels.
- Aligned with the nationally-recognized Manufacturing Skill Standards Council (MSSC) Certified Production Technician (CPT) credential.
  - Each course prepares students to pass a specific MSSC certification test.
- Hybrid using online skills training via ToolingU and hands-on labs on campus.
  - Meet face-to-face at regularly scheduled times for about 50% of the course
  - Class times accommodate shift workers.
  - Computer and Internet access are required for the other 50% of the course.

#### Students may:

- Take courses while employed to advance with current employer.
- Seek employment immediately as a Certified Production Technician.
- Apply Certificate courses toward the DEMT Diploma or AAS degree.
- Enter any of 7 other SCC Associates Manufacturing Programs without further placement testing.

### Four Introductory Courses + Math 1040 Business Math = Certificate of DEMT

Each class is 4.5 credits

30 hours face-to-face, 25 hours online activities using ToolingU and contextualized math and writing
