Training for Regional Energy in North Dakota

In September 2012, the U.S. Department of Labor swarded \$500 million to higher education institutions across the country under the Trade Adjustment Assistance Community College and Career Training grant program. This grant provides funds to expand and improve the institutions' delivery of education and career training programs that can be completed in two years or less to workers eligible under the Trade Adjustment Assistance for Workers program, as well as other adults.

In a unique partnership between state and tribal institutions, five colleges in North Dakota came together as a consortium and received \$14.6 million of this Department of Labor grant. This group is called the TREND Cons

Employment Opportunities

A recent study by the U.S. Bureau of Economic Analysis credited the energy industry for North Dakots taking the top spot as the fastest-growing economy in 2012, a title the state has earned for three years in a row. North Dakots continually rarish high in job growth figures, and projections from the North Dakots Department of Mineral Resources show a need for more than 50,000 workers in the energy industry by 2015. These occupations include gathering, drilling and production jobs and require some college, a high school diploma and/or technical skills. The TREND Consortium will offer training to prepare students for high-skill and high-wage careers, with each college specializing in different program areas.

TREND Consortium Goals

- Develop new and enhanced curriculum and credentials to help students find jobs in oil and gas, transportation, and building and construction trades in North Dakots.
 Redesign the program development and delivery systems provided by the colleges to support more flexible and technology-enabled learning.
 Offer enhanced student support services and career navigation to increase retention and job placement.

- Mechanical Maintenance Technicians
 Petroleum Operators
 Refinery Operators
 Natural Gas Processing Plant Operators
 Truck Drivers
 Carpenters
 Welders
 Electricians
 Plumbers
 Inseworkers

- Lineworkers
 Heating, Ventilation, and Air Conditioning Technicians
