

Building Nursing Pathways

Subject Matter Expert Review Follow-Up Statement

Document Title: Bellingham Technical College Clinical Redesign Project Report

This statement is intended to document revisions made to this report following SME review.

Dr. Annette Flanders, the Nursing Program Director at nearby Whatcom Community College, served as SME reviewer. In her written feedback, and during a follow-up meeting, Dr. Flanders posed questions regarding demand for registered Nurses, shared a different conception of the Designated Education Unit (DEU) model, and considered how core competencies detailed in the report were achieved.

The report was revised as a result of this feedback. Specific revisions include updated language regarding demand for registered nurses, significant changes to descriptions of how BTC implements clinical education (including the use of a modified DEU), and clarification and alignment of core competencies throughout the report.
